Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

INVESTMENT MANAGERS' REPORTS

Sector Global Equity Kernel

Global equity markets had a strong first half of 2019. The ACWI index returned +16.2%, recovering losses from 2018. On a sector basis, the largest contributors have been IT, Financials and Consumer Durables. In terms of regions, the US has by far been the strongest market.

The Sector Global Equity Kernel Fund returned +12.8% (Class P USD) during the same period, and somewhat weaker than the broader market. Year to date, the largest contributions have come from the IT and Materials sectors. From a regional perspective, the US led the way, but emerging markets have also contributed significantly.

Looking forward, our concern is that global equity markets are faced with glaring signs that the business cycle is rolling over. Business cycles, however, are not all the same: whereas the 2001 downturn was a capex recession in the aftermath of the TMT bubble, in 2008 it was about housing. The next down cycle could well be about U.S. corporates having borrowed too much to buy back their own stock. If they begin to 'run for cash', that is to pay down debt instead of investing in machinery and equipment, another capex recession could be at hand. This is probably the biggest risk this time, and it is likely to originate in the U.S.. If so, it would likely represent a great opportunity for Kernel's relative outperformance, as the global index is more than 50% invested in the U.S. while we can elect to be much less so.

Sector Healthcare Value Fund

The first six months of 2019 was a challenging time for the healthcare sector. Despite being up 9.8%, healthcare remains out of favour and lagging the broader markets. The sector remains caught up in a flux between macro worries and policy narratives that seem to change on a weekly basis. Healthcare specific headwinds such as opioid litigation, Medicare for All, President Trump's latest Executive Order and the beaten down drug pricing theme have helped to drive secular growth stories within life science tools, medical technology and dental to all time high valuations.

The Sector Healthcare Value Fund returned +10.6% outperforming its benchmark by 0.9% in the process. The return was broad based driven by solid stock pricing but led by our large-cap positions. On a regional basis our performance was driven by our US bets with our Japanese holdings being the weakest.

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO THE FINANCIAL STATEMENTS

1. Organisation and Structure

Sector Capital Funds plc (the "Company") was incorporated and registered in Ireland with registered number 489443 and is governed by the Companies Acts 2014 as an open-ended umbrella investment company with variable capital and with segregated liability between sub-funds on 27 September 2010. The Company is authorised by the Central Bank of Ireland pursuant to European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (the "Regulations").

As at 30 June 2019, Company has four funds in existence (30 June 2018: four), Sector Global Equity Kernel, Sector Healthcare Value Fund, Sector Sigma Nordic Fund and Trient Dynamic Multi-Asset Fund (the "Funds").

Sector Healthcare Value Fund commenced trading on 17 November 2010. The base currency of Sector Healthcare Value Fund is United States Dollars ("USD"). As at 30 June 2019, nine classes are subscribed to in the Fund (30 June 2018: ten), Class A EUR Shares, Class A NOK Shares, Class A USD Shares, Class B EUR Shares, Class B NOK Shares, Class B SEK, Class B USD Shares, Class L NOK Shares, and Class X USD Shares. Class A USD, Class A EUR and Class A NOK Shares were listed on the Irish Stock Exchange on 18 November 2010 and Class B NOK Shares were listed on the Irish Stock Exchange on 10 September 2013.

Sector Global Equity Kernel commenced trading on 19 March 2014. The base currency of Sector Global Equity Kernel is USD. As at 30 June 2019, five classes are subscribed to in the Fund (30 June 2018: five), Class P USD Shares, Class P NOK, Class P NOK Unhedged, Class A USD Shares and Class A NOK Shares were listed on the Irish Stock Exchange on 27 March 2014.

Sector Sigma Nordic Fund commenced trading on 25 June 2012 and ceased trading effective 27 April 2018. The base currency of Sector Sigma Nordic Fund is Norwegian Krone ("NOK"). As at 30 June 2019, all share classes have been fully redeemed.

Trient Dynamic Multi-Asset Fund commenced trading on 23 April 2018 and ceased trading effective 26 October 2018. The base currency of Trient Dynamic Multi-Asset Fund is Norwegian Krone ("NOK"). As at 30 June 2019, all share classes have been fully redeemed.

Investment Objective

The investment objective of Sector Healthcare Value Fund is to achieve attractive long term investment returns relative to the MSCI Daily TR World Net Health Care USD (the "Index"). The Index is a capitalisation weighted index that monitors the performance of health care stocks from around the world. The Fund may invest in equities and financial instruments that are not part of the Index. There can be no guarantee that the investment objective of the Fund will be achieved.

The investment objective of Sector Global Equity Kernel is to maximise long-term total return relative to MSCI ACWI Index (the "Index"). The Index is a free float-adjusted market capitalisation weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 45 country indices comprising 24 developed and 21 emerging market country indices. There can be no guarantee that the investment objective of the Fund will be achieved.

The investment objective of Sector Sigma Nordic Fund was to generate attractive risk adjusted return for its investors, primarily through investment in Norway, Sweden, Denmark, Finland and Iceland (the "Nordic Region") with the aim of generating positive returns over time in rising as well as falling equity markets.

The investment objective of Trient Dynamic Multi-Asset Fund was to seek to achieve long-term capital appreciation consistent with the preservation of capital. The Fund did seek to achieve its objective primarily through investment in a diversified portfolio of equities and bonds, but also through exposure to collective investment schemes ("CIS") with similar investment objectives and policies to the Fund, and cash and cash equivalents. There was no guarantee that the investment objective of the Fund would have been achieved.

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with the Financial Reporting Standard 102 ("FRS 102"), the Financial Reporting Standard applicable in the UK and Republic of Ireland, the Companies Acts 2014, the Regulations and the listing rules of the Irish Stock Exchange.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss in accordance with the European Communities (Fair Value Accounting) Regulations 2011.

The Company has availed of certain exemptions available to open-ended investment funds in FRS 102 not to prepare a cash flow statement in paragraph 7.1A of FRS 102.

The preparation of financial statements in accordance with FRS 102 requires Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the financial period. Actual results could differ from those estimates.

(a) Portfolio valuation

Investment transactions

(i) Classification

The Company classifies all of its investments as financial assets or financial liabilities at fair value through profit or loss. These financial instruments are designated on the basis that their fair value can be reliably measured and their performance has been evaluated on a fair value basis in accordance with the risk management and/or investment strategy as set out in the Company's Prospectus.

(ii) Recognition

The Company recognises financial assets and financial liabilities on the date it becomes party to the contractual provisions of the instrument. Investment transactions are accounted for on a trade date basis at cost. Purchases and sales of securities are accounted for on the trade date on which the transaction takes place. Transaction costs are expensed immediately to the Profit and Loss Account and not capitalised as part of cost of the investment.

(iii) Measurement

Financial assets and financial liabilities held for trading are measured at fair value. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arms length transaction.

Realised gains and losses on sales of investments are calculated on a First-In, First-Out ("FIFO") basis. Unrealised gains and losses on investments are recognised in the Profit and Loss Account. Forward foreign currency contracts and any other instruments held by the Company and traded on an exchange will be measured at fair value based on the last reported traded price on such regulated market as at the relevant valuation point.

If an investment is quoted, listed or normally dealt in on more than one market, the Directors may, in their absolute discretion, select any of such markets for the valuation purposes.

(iv) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

(b) Forward foreign currency contracts

The unrealised gain or loss on open forward foreign currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Realised gains or losses include net gains on contracts which have been settled or offset by other contracts.

(c) Options

When the Company writes or purchases put or call options, an amount equal to the premium received or paid is recorded as a liability or an asset and is subsequently marked-to-market based on quoted market prices in the Balance Sheet. Premiums received or paid from writing or purchasing put or call options which are expired or were unexercised are recognised on the expiration date as realised gains or losses in the Profit and Loss Account. If an option is exercised, the premium received or paid is included with the proceeds or the cost of the transaction to determine whether the Company has realised a gain or loss on the related investment transaction in the Profit and Loss Account. When the Company enters into a closing transaction, the Company will realise a gain or loss in the Profit or Loss Account depending upon whether the amount from the closing transaction is greater or less than the premium received or paid.

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies (Continued)

(d) Contracts-for-difference

A contract-for-difference ("CFD") is a contract between two parties, buyer and seller, stipulating that the seller will pay to the buyer the difference between the current value of an asset (a security, instrument, basket or index) and its value at contract time. The payment flows are usually netted against each other, with the differences being paid by one party to the other. The unrealised gain or loss depends upon the prices at which the underlying financial instruments of the CFD is valued at and is included in the Profit and Loss Account.

(e) Foreign exchange translation

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency of Sector Global Equity Kernel is the United States Dollar ("USD"), due to the fact that the majority of the Fund's assets are denominated in USD and that a substantial portion of capital is issued in USD. The functional currency of Sector Healthcare Value Fund is the United States Dollar ("USD"), due to the fact that the majority of the Fund's assets are denominated in USD and that a substantial portion of capital is issued in USD. The functional currency of Sector Sigma Nordic Fund and Trient Dynamic Multi-Asset Fund was Norwegian Krone ("NOK"), due to the fact that the majority of the Fund's assets were denominated in NOK and that a substantial portion of capital was issued in NOK. Each Fund has adopted its functional currency as the presentation currency for these financial statements. Assets and liabilities expressed in foreign currencies are converted into the functional currency of each Fund using the exchange rates prevailing as at the balance sheet date. Transactions in foreign currencies are translated into the Fund's functional currency at exchange rates ruling at the transaction dates. Gains and losses on foreign exchange transactions are recognised in the Profit and Loss Account in determining the result for the period.

At 30 June 2019, in accordance with FRS 102, a period end exchange rate of NOK/USD 0.1173 (30 June 2018: NOK/USD 0.1227) was used to translate the Balance Sheet of Sector Sigma Nordic Fund in arriving at the total USD value for the Company in the financial statements.

At 30 June 2019, the Profit and Loss Account and Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares of Sector Sigma Nordic Fund has been prepared using an average rate of exchange of NOK/USD 0.1161 (30 June 2018: NOK/USD 0.1261) in arriving at the total USD value for the Company in the financial statements. This results in a foreign currency translation profit/loss in the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares when compared to the NOK/USD rate used at period end. The adjustment recorded in the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares for the financial period ended 30 June 2019 was USDNil (30 June 2018: loss USD(2,895,530)).

(f) Futures

For open futures contracts, changes in the value of the contract are recognised as unrealised gains or losses by "marking-to-market" the value of the contract at the balance sheet date. When the contract is closed, the difference between the proceeds from (or cost of) the closing transactions and the original transaction is recorded as a realised gain or loss. Futures contracts are valued at the settlement price established each day by the board or exchange on which they are traded.

(g) Offsetting financial instruments

Financial assets and financial liabilities may be offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. As at 30 June 2019 and 30 June 2018, no offsetting has been presented in the Balance Sheet.

(h) Income

Dividends are recognised as income on the dates that securities are first quoted "ex-dividend" to the extent information thereon is reasonably available to the Company. Interest income is accrued on a daily basis. Deposit interest is recognised as income on an accruals basis.

(i) Expenses

Operating expenses are accounted for on an accruals basis.

(j) Net asset value per share

The Net Asset Value per Share of each class is calculated by dividing the Net Asset Value attributable to a class by the number of shares of a class in issue as at the relevant valuation point.

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies (Continued)

(k) Redeemable participating shares

Shares issued by each Fund provide shareholders with the right to redeem their shares, for cash equal to their proportional share of the net asset value of the Fund and are classified as financial liabilities in accordance with FRS 102. The Fund does not meet the requirement to be classified as equity as the Fund offers different classes of shares with varying rights attached to them. The liabilities to shareholders are presented on the Balance Sheet as "Net assets attributable to holders of Redeemable Participating Shares" and are determined based on the residual assets of the Fund after deducting the Fund's other liabilities.

(l) Amounts due from/to broker

Amounts due from/to broker relate to the outstanding amounts pending settlement on forward foreign currency contracts and upfront cash payments for fully funded contracts-for-difference.

(m) Taxation

The Company incurs dividend withholding tax and other taxation imposed by certain countries on investment income and gains on investments. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in Profit and Loss Account.

(n) Transaction costs

Transaction costs are costs incurred to acquire financial assets or financial liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expense. For the financial period ended 30 June 2019 Sector Global Equity Kernel incurred transaction costs of USD298,739 (30 June 2018: USD462,878), Sector Healthcare Value Fund incurred transaction costs of USD43,095 (30 June 2018: USD28,422), Sector Sigma Nordic incurred transaction costs of NOKNil (30 June 2018: NOK199,020) and Trient Dynamic Multi-Asset Fund incurred transaction costs of NOKNil (30 June 2018: NOK308,672).

(o) Cash

Cash at bank and brokers represents, cash and cash equivalents, with original maturities of three months or less held with the Depositary.

(p) Anti-dilution levy

During a period of continuous or significant net subscriptions or redemptions, an anti-dilution levy of up to 0.01% of the Net Asset Value of Trient Dynamic Multi-Asset Fund may have been payable to the Fund at the discretion of the Directors to cover dealing costs and to preserve the value of the underlying assets of the Fund. As at 30 June 2019, the Fund incurred anti-dilution levy costs of NOKNil (30 June 2018: NOK50,640). Anti-dilution levy incurred during the period are presented in the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares.

3. Dividend and Distribution Policy

The Directors do not currently intend to pay dividends. Accordingly, the price of the shares shall rise as income and capital gains accrue.

4. Taxation

The Company will not be liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Year', a 'Relevant Year' being an eight year period beginning with the acquisition of the shares by the shareholders and each subsequent year of eight years beginning immediately after the preceding relevant year.

A chargeable event does not include:

- (i) Any transactions in relation to shares held in a recognised clearing system: or
- (ii) An exchange of shares representing a fund for another fund: or
- (iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of a Fund with another fund: or
- (iv) Certain exchanges of shares between spouses and former spouses.

A chargeable event will not occur in respect of shareholders who are neither resident nor ordinarily resident in Ireland and who have provided the Company with a relevant declaration to that effect.

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

NOTES TO THE FINANCIAL STATEMENTS (Continued)

4. Taxation (Continued)

In the absence of an appropriate declaration, the Company will be liable to Irish Tax on the occurrence of a chargeable event. There were no chargeable events during the period under review. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

5. Exchange Rates

The following exchange rates (against USD) were used to convert the investments and other assets and liabilities denominated in currencies other than USD as at 30 June 2019 and 30 June 2018:

Currency	30 June 2019	30 June 2018
Australian Dollar	1.4250	1.3534
Brazilian Real	3.8327	3.8476
British Pound	0.7857	0.7574
Canadian Dollar	1.3068	1.3154
Chinese Renminbi	-	6.6269
Danish Krone	6.5540	6.3816
Euro	0.8781	0.8565
Hong Kong Dollar	7.8125	7.8431
Hungarian Forint	-	285.7143
Japanese Yen	107.7354	111.1111
Korean Won	1,154.7344	1111.1110
Norwegian Krone	8.5260	8.15
Singapore Dollar	1.3530	1.3635
Swedish Krona	9.2782	8.9445
Swiss Franc	0.9750	0.993
Taiwan Dollar	31.0598	30.4878
Turkish Lira	5.7840	-

The following exchange rates (against NOK) were used to convert the investments and other assets and liabilities denominated in currencies other than NOK as at 30 June 2019 and 30 June 2018:

....

Currency	30 June 2019	30 June 2018
Australian Dollar	0.1673	0.1661
British Pound	0.0923	0.0929
Canadian Dollar	0.1534	0.1614
Danish Krone	0.7696	0.783
Euro	0.1031	0.1051
Hong Kong Dollar	0.9174	0.9626

Goldman Sachs	3,385,769	-	-	-
SEB	-	-	-	47,287,917
	26,809,208	7,047,812	127,886	103,786,294

As at 30 June 2019, Sector Global Equity Kernel pledged USD2,010,000 as collateral with Goldman Sachs (30 June 2018: USD3,400,000). Trient Dynamic Multi-Asset Fund pledged NOKNil (30 June 2018: 2,430,000) as collateral with SEB. Any overdrafts noted above are temporary in nature as they relate to timing differences only.

7. Financial Instruments and Associated Risks

Included in the Company's financial instruments, but not limited to, are global equities and equity related securities (including but not limited to American Depositary Receipts, Global Depositary Receipts, European Depositary Receipts and other equity based derivatives), corporate bonds and government debt obligations that shall be listed or traded on any market.

The main risks arising from the Company's financial instruments are market price, liquidity, interest rate, foreign currency and credit risks.

The Market Risk Group ("MRG") functions across all Sector Investment Manager entities and the group is responsible for defining risk management related limits ("soft limits") in addition to the investment restrictions found in the Prospectus and related supplements, in cooperation with the respective Investment Manager, securing that the Funds have a portfolio construction and risk exposure that are in line with the intentions of the individual Funds. The limits are generally related to exposure towards single positions and sectors, total portfolio exposure and Value-at-Risk ("VAR"). MRG consists of the CEO of Sector Asset Management AS (leader of MRG), Head of Fund Operations, the CCO and CEO of Sector Fund Services AS. The Head of Fund Operations has the mandate to give short term exceptions to the risk limits set by MRG if he/she finds that under certain market conditions, the limits have unintended adverse effects, for example in extreme market conditions. Such exceptions are reported to the other members of MRG and to the Group Chief Compliance Officer.

(a) Market price risk

Market price risk arises from uncertainty concerning future prices of financial instruments. The consequence might be a decline in the Fund's value. The risk related to the Funds – i.e. a combination of the probability of loss and the consequences – must be weighed against the potential gain for the Fund. To limit the risk, the Funds are both diversified and constructed through fundamental analyses of the expected behaviour and volatility of the individual instruments while following each Fund's investment objective.

Value-at-Risk

Value-at-Risk (VaR) represents the potential loss one might suffer given a defined confidence interval and time horizon. The measure is one of the main risk measures for the Company under normal market conditions.

The main risk management tool for VaR calculations was Bloomberg. For all Funds, the Bloomberg VaR calculation is based on Monte Carlo simulations at a 95% confidence interval i.e. that one in every 20 days is expected to be above this measure in the long run.

Trient Dynamic Multi-Asset Fund	0.92%	298.0%	(5.00%)	0.91%	1.14%	0.98%					

^{*} Exposure as % of NAV

Exposure

Exposure for pure equities is equal to the fair value of the securities. The total gross exposure of each Fund is the sum of the absolute values of all long and short exposures.

(b) Interest rate risk

Interest rate risk is the risk (variability in value) borne by an interest-bearing asset, due to variability of interest rates. In general, as rates rise, the price of a fixed rate bond will fall, and vice versa. Interest rate risk is commonly measured by the bond's duration. For the financial period ended 30 June 2019 and 30 June 2018 the Funds, have not invested in interest bearing assets, other than cash amounts. As at 30 June 2019 and 30 June 2018, the Funds do not have any significant fair value interest rate risk exposure.

Tables outlining the currency and interest exposure as at 30 June 2019 and 30 June 2018 are outlined in note 7(d).

^{**} Net open position as % of NAV

For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(c) Liquidity risk

Liquidity risk is linked to the Funds having to realise assets in unfavourable market conditions with large losses as a consequence due to for example, redemptions in a Fund or a collapse in long asset values reducing the collateral held by counterparties leading to margin calls, if applicable. This means that there are two aspects that are monitored; what is the probability of the situation occurring and how fast can the Funds realise their positions without significant adverse effects on the value of the positions.

Liquidity of portfolio

The Company's Prospectus provides for daily subscription and redemption of shares in the Funds, therefore the Funds are exposed to a liquidity risk of meeting shareholder redemptions on a daily basis. The majority of the Funds' assets are comprised of publicly traded securities and are thus relatively easily realised. Still, with each Fund having the possibility to take positions in small cap equities, the ability of a Fund to realise assets within a short year of time without a large negative impact on the value of the assets is important. Some of the recognised exchanges on which a Fund may invest may prove to be less liquid or highly volatile from time to time. The Funds may invest a limited proportion of their assets in unquoted securities.

For the financial period ended 30 June 2019 and 30 June 2018, the Funds held very liquid assets and liquidity was monitored daily by the Investment Manager.

The reports below are snapshots of the estimated liquidity of the Funds as at 30 June 2019:

Sector Global Equity Kernel

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(d) Foreign currency risk

Foreign currency risk is in reality a sub-group of market risk, but with its own idiosyncrasies, both with respect to a Fund's portfolio as well as the investor classes denominated in different currencies. Certain currency related transactions may, for example, be employed by the Funds in order to hedge against foreign exchange risk subject to the conditions and limits laid down by the Central Bank of Ireland. Such transactions include forward foreign currency contracts and may for example be executed in cases where an investment is in a currency other than the Fund's functional currency.

A substantial portion of the financial assets of the Funds are denominated in currencies other than the relevant Fund's functional currency with the effect that the balance sheet of the Funds can be significantly affected by currency movements.

Currency exposure for investor classes

The shares of the Company are denominated in United States Dollar (USD), Euro (EUR), Norwegian Krone (NOK) and Swedish Krona (SEK) and are issued and redeemed in those currencies. The Investment Manager may seek to hedge the foreign currency exposure of the assets attributable to the shares in order to neutralise as far as reasonably possible, the impact of fluctuations in exchange rates. This is done monthly in addition to when a Fund has more than 3% absolute return, month to date. There is no guarantee that such hedging will give returns that are equal regardless of which currency the shareholders have invested in. In addition, shareholders whose assets and liabilities are predominantly in currencies other than the currency of investment in the Company should take into account the potential risk of loss arising from fluctuations in value between USD, EUR, NOK or SEK being the currency of shareholder investment, and such other currencies as invested in by the Company.

Portfolio currency exposure

The Funds trade in many different markets across the world and in many different currencies. Thus, certain assets in the portfolio may, regardless of the shares of the Fund, be invested in securities which are denominated in currencies other than USD, EUR, NOK or SEK. Consequently, the value of such assets will be affected either favourably or unfavourably by fluctuations in currency rates. The exposure towards the different currencies based on the denomination of the securities is reported daily for each Fund. For each individual Fund, action towards currency exposure in the portfolio is taken by the Investment Manager based on reported exposure of the Fund's assets.

Amounts represented below primarily are monetary assets and monetary liabilities except for investments in non-interest bearing securities, which include equities and contracts-for-difference, which are non-monetary assets.

(e) Credit risk

Credit risk is the risk that a counterparty will fail to discharge an obligation or commitment that is has entered into with the Funds, resulting in a financial loss to the Funds.

The Funds are exposed to credit risk associated with counterparties with whom it trades or holds assets, and will also be exposed to the risk of settlement default. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Management of credit risk

The Investment Manager is complying with the Central Bank UCITS Regulations in terms of investment restrictions and otherwise with the investment policy of the Sub-Funds.

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(e) Credit risk (Continued)

Exposure to credit risk

The Sub-Fund's maximum credit risk exposure at the Balance Sheet date is represented by the respective carrying amounts of the financial assets in the Balance Sheet with the exception of derivatives whose maximum credit risk exposure is notional exposure.

Derivative financial instruments

The Funds may also invest in financial derivative instruments for investment purposes and for efficient portfolio management ("EPM"), including (but not limited to) futures, forwards, options, contracts for difference and warrants.

All cleared derivative positions entered into on behalf of the Funds are cleared via SEB and Goldman Sachs as appointed Futures Commission Merchant ("FCMs"). Bilateral (non-cleared) derivatives face SEB and BNY as OTC credit counterparty.

Trade counterparty

The Funds mitigate counterparty risk by undertaking transactions with large and well capitalised counterparties. The Funds also seek to trade with more than one counterparty and have reduced the activity with counterparties when there have been questions raised regarding the robustness of counterparties in terms of credit risk.

Although it is the intention of the Investment Managers to follow a general policy of seeking to spread the Funds' capital at risk over a number of investments and counterparties, the Funds may at certain times hold relatively few positions with the result that a loss in any such position either to trading counterparty or settlement default could have a substantial adverse impact on a Fund's capital.

The table below shows the long-term S&P credit ratings for the counterparties that hold cash as at 30 June 2019 and 30 June 2018:

	30 June 2019	30 June 2018
BNY Mellon	A	A
DNB	AA-	A+
Goldman Sachs	A+	A+
Nordea	AA-	AA-
SEB	A+	AAA

As at 30 June 2019 and 30 June 2018, the Funds had not pledged any securities as collateral for contracts-for-difference trading.

(f) Fair value estimation

The Company used the following fair value hierarchy levels in categorising its financial instruments by source of inputs used to determine its fair value:

- Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3: Inputs are unobserverable (i.e. for which market data is unavailable) for the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments classified as Level 3 are those for which a quoted price at period end was unavailable and evidence of a recent transaction at that date could not be ascertained. These investments represent collective investment schemes where the net asset value is calculated by an underlying administrator. The net asset values represent their best evidence of the fair value of these assets at period end, however due to the lack of quoted price and evidence of a recent transaction, a Level 3 classification is considered appropriate.

The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses inputs that are unobservable, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(f) Fair value estimation (Continued)

There were no significant transfers between levels during the period ended 30 June 2019 or 30 June 2018. Transfers between levels of the fair value hierarchy, for the purpose of disclosure in financial statements, are deemed to have occurred at the end of the reporting period.

The fair values of investments valued under Levels 1 to 3 as at 30 June 2019 are as follows:

Sector Global Equity Kernel	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Financial assets at fair value through profit or loss	650	CSD	CSD	CSD
Equity securities	183,524,583	_	_	183,524,583

NOTES TO FINANCIAL STATEMENTS (Continued)

8. Share Capital

The authorised share capital of the Company is 1,000,000,000,000,000 Shares of no par value initially designated as unclassified shares. The issued share capital of the Company is 62 represented by 2 shares (the "Subscriber Shares") issued for the purposes of the incorporation of the Company at an issue price of 61 per Share which are fully paid up and which are beneficially owned by Sector Asset Management AS and Prieren AS.

Sector Global Equity Kernel may issue Class A EUR Shares, Class A NOK Hedged Shares, Class A NOK Unhedged Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Hedged Shares, Class B NOK Unhedged Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class C EUR Shares, Class C NOK Shares, Class C SEK Shares and Class C USD Shares (the "Class C Shares"), Class L NOK Shares, Class O NOK Shares, and Class P NOK Hedged Shares, Class P NOK Unhedged Shares and Class P USD Shares ("the Class P Shares").

Sector Healthcare Value Fund may issue Class A EUR Shares, Class A NOK Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class L NOK Shares and Class X EUR Shares and Class X USD Shares (the "Class X Shares").

Sector Sigma Nordic Fund had issued Class A EUR Shares, Class A NOK Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class C NOK Shares and Class C SEK Shares (the "Class C Shares"), Class D EUR Shares, Class D NOK Shares, Class D SEK Shares and Class D USD Shares (the "Class D Shares") and Class L NOK Shares. As at 31 December 2018, all shares had been fully redeemed.

Trient Dynamic Multi-Asset Fund had issued Class B NOK Shares, Class C NOK Shares, Class I NOK shares and Class I hedged NOK Shares. As at 31 December 2018, all shares had been fully redeemed.

On a show of hands every holder who is present in person or by proxy shall have one vote and the holders of Subscriber Shares present or in person or by proxy shall have one vote.

The rights attached to any class may be varied or abrogated with the consent in writing of the holders of three-fourths in number of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares of the class, and may be so varied or abrogated either whilst the Company is a going concern or during or in contemplation of a winding-up. The quorum at any such separate general meeting, other than an adjourned meeting, shall be two persons holding or representing by proxy at least one third of the issued Shares of the class in question and the quorum at an adjourned meeting shall be one person holding Shares of the class in question or his proxy.

Class L NOK Shares and Class O NOK (issued by Sector Global Equity Kernel) are only available for subscription by (i) other funds, (including sub-funds of the Company), or similar collective investment schemes that a Sector Group (as defined in the Company's prospectus) company manages; (ii) the Directors; (iii) any person or investor connected with any such person or entity referred to in parts (i) and (ii) including, without limitation, a trustee of a trust established by or for such an entity, (iv) any company, partnership or other entity controlled by a Sector Group company (v) any company, partnership or other entity which has been appointed or acts as investment manager or investment adviser of an entity referred to in part (i), (vi) any employee of the Sector Group or (vii) any nominee of any of the foregoing.

The Class L NOK Shares (issued by Sector Healthcare Value Fund and Sector Sigma Nordic Fund) were open for public participation. However, the Investment Manager intends the Class L NOK Shares would have been primarily invested in by any employees of a Sector Group company, any spouse of such employee, or any company controlled by (one or more) such employee or spouse.

Class L NOK Shares (issued by all Funds) are exempt from paying investment management fees.

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

9. Investment Management Fees

The Company has appointed Sector Omega AS as Investment Manager to Sector Global Equity Kernel and Sector Gamma AS as Investment Manager to Sector Healthcare Value Fund. Sigma Fondsforvaltning AS was the Investment Manager to Sector Sigma Nordic Fund. Trient Asset Management AS was appointed to provide investment management services pursuant to the investment management agreement between the Company and the Investment Manager.

Sector Global Equity Kernel pays the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class A Shares	Up to 1.50%
Class B Shares	Up to 0.75%
Class C Shares	Up to 0.50%
Class P Shares	Up to 0.50%
Class O Shares	Up to 3.00%

The Investment Manager does not charge a fee in respect of the Class L NOK Shares.

Sector Healthcare Value Fund pays the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class A Shares	Up to 1.0%
Class B Shares	Up to 2.0%
Class X Shares	Up to 0.5%

The Investment Manager does not charge a fee in respect of the Class L NOK Shares.

Sector Sigma Nordic Fund paid the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class A Shares	Up to 1.0%
Class B Shares	Up to 1.5%
Class C Shares	Up to 2.0%
Class D Shares	Up to 1.5%

The Investment Manager did not charge a fee in respect of Class L NOK Shares.

Trient Dynamic Multi-Asset Fund paid the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class B Shares	Up to 1.25%
Class C Shares	Up to 1.00%
Class I Shares	Up to 0.60%
Class I Hedged Shares	Up to 0.60%

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

9. Investment Management Fees (Continued)

The total management fees accrued for the financial period ended 30 June 2019 were USD1,555,552 (30 June 2018: USD1,440,527) and the net amount outstanding at 30 June 2019 was USD555,206 (30 June 2018: USD450,786).

10. Incentive Fees/Performance Fees

The Investment Manager is also entitled to receive an incentive fee/performance fee ("Incentive Fee" / "Performance Fee"), as calculated for each Fund as disclosed below. The Incentive Fee/Performance Fee will be verified by the Depositary.

Sector Global Equity Kernel

The Fund, in respect of the Class C Shares and Class O Shares pays the Investment Manager an incentive fee (the "Incentive Fee") equal to 10 per cent of the amount by which the Net Asset Value (before the deduction of any performance fee) of the relevant Class exceeds the MSCI ACWI Index ("Index") adjusted Prior High Net Asset Value ("Index adjusted Prior High Net Asset Value") (as defined below). No Incentive Fee is charged in respect of the Class A Shares, Class B Shares, Class P Shares and Class L NOK Shares.

The Incentive Fee is calculated on a share-by-share basis so that each share is charged a fee which equates precisely with that share's performance over each Calculation Year (as defined below). This method of calculation ensures that (i) any Incentive Fee paid to the Investment Manager is charged only to those shares which have outperformed their respective Prior High Net Asset Value over the course of a Calculation Year, (ii) all holders of shares have the same amount of capital per share at risk in the Fund, and (iii) all shares in a particular class have the same net asset value per share.

The Incentive Fee shall only be payable on the amount by which each share outperforms the previous high watermark or Index adjusted Prior High Net Asset Value for the relevant share. For each Calculation Year, an Incentive Fee will only be payable by a particular share if the net asset value of that share at the end of a Calculation Year is greater than the prevailing Prior High Net Asset Value for that share.

The "Prior High Net Asset Value" of each share is the highest net asset value per share on which Incentive Fee was paid in respect of any previous Calculation Year (or, if no Incentive Fee has yet been paid with respect to any such Calculation Year, the Initial Issue Price of the relevant share). The "Index adjusted Prior High Net Asset Value" of each share is the Prior High Net Asset Value adjusted by the performance of the Index for the relevant Calculation Year. The calculation year for the Incentive Fee shall be a calendar year, closing on the 31 December each year (or if the 31 December is not a Business Day, on the last Business Day of the year) (the "Calculation Year"). The Incentive Fee will accrue as at each valuation point and shall be payable annually in arrears (on or after the first business day of the following year).

Sector Healthcare Value Fund

The Fund, in respect of the Class A Shares, pays the Investment Manager a fee equal to 20% of the amount by which the net asset value (before the deduction of any performance fee) of the relevant share exceeds the MSCI Daily TR World Net Healthcare USD (the "Index"), and in respect of Class X Shares, a fee equal to 15% of the amount by which the net asset value (before the deduction of any performance fee) of the relevant share exceeds the Index (the "Incentive Fee").

The relevant share's subscription price or the initial issue price (where shares are issued during the initial offer year) is taken as the starting price for the purposes of determining the Incentive Fee. The Incentive Fee is accrued on a daily basis and reflected in the net asset value per share at each valuation point. The accrued Incentive Fee will only be paid to the Investment Manager once a shareholder redeems its investment in the Fund or when the Fund closes down where the performance of the relevant shares has exceeded the performance of the Index. The Incentive Fee may be payable even if the absolute return on the shareholder's investment is zero or negative. For example, if during the year of a shareholder's investment in the Fund, the net asset value per share on redemption is less than or equal to the net asset value per share that that shareholder paid on its initial subscription into the Fund, the Incentive Fee may still be payable if the net asset value per share on redemption exceeds the Index Net Asset Value per share, i.e. the Fund has outperformed the Index for the year of the shareholder's investment. No Incentive Fee will be charged in respect of the Class B Shares and Class L NOK Shares.

Sector Sigma Nordic Fund

The Investment Manager was entitled to receive an incentive fee (the "Incentive Fee") of the aggregate appreciation in value of the Class A Shares, the Class B Shares, the Class B Shares, the Class C Shares and Class D Shares during the relevant Calculation Year (as defined below). No Incentive Fee was charged in respect of the Class L NOK Shares.

The Incentive Fee equalled 15% of the aggregate appreciation in value of the Class A Shares and 20% of the aggregate appreciation in value of the Class B Shares and the Class C Shares.

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

10. Incentive Fees/Performance Fees (Continued)

The Incentive Fee accrued as at each valuation point and was calculated annually on the rate of return (net of the Investment Manager's fees) of each class, and was payable annually in arrears (on or after the first business day of the following year), or upon redemption, if earlier. The calculation period for the Class A Shares, the Class B Shares and the Class C Shares was a calendar year, closing on the last business day each year (the "Calculation Period"). The First Calculation Period for any unlaunched Class A, Class B and/or Class C Share commenced from the conclusion of the relevant initial offer period and ceased on the last business day of the relevant calendar year.

The Investment Manager was entitled to an incentive fee ("Class D Incentive Fee") equal to 20% of the aggregated appreciation in value of the Class D Shares, in excess of the Prior High Net Asset Value (as defined below) adjusted by the performance of the following hurdle rates, (each a "Hurdle Rate"); Class D SEK Shares the return of 3 month Swedish treasury bills (Bloomberg Ticker: GSGT3M Index). The Investment Manager agreed to waive the 3 month Swedish Treasury bill as hurdle rate whenever the return of the 3 month Swedish treasury bills was negative. In this instance the hurdle rate was set at zero;

- Class D USD Shares the return of 3 month US treasury bills (Bloomberg Ticker: USGG3M Index);
- Class D NOK Shares the return of 3 month Norwegian treasury bills (Bloomberg Ticker: GNGT3M Index); and
- Class D EUR Shares the return of 3 month German treasury bills (Bloomberg Ticker: GETB1 Index).

Prior High Net Asset Value per Share was the greater of (i) the Initial Issue Price for the relevant Class D Shares or (ii) the Net Asset Value per Class D Share on which the Class D Incentive Fee was paid in respect of any previous Class D Calculation Year.

The first calculation year for the Class D Shares commenced from the close of the relevant initial offer year for the Class D Shares and concluded on the next Business Day thereafter. The calculation year thereafter was each Business Day (the "Class D Calculation Year"). The Class D Incentive Fee was calculated and crystallised as at each Valuation Point (net of the Investment Manager's fees), and was payable monthly in arrears (on or after the first Business Day of the following month), or upon redemption, if earlier.

Trient Dynamic Multi-Asset Fund

The Investment Manager was entitled to receive a performance fee based on its investment management performance during a performance period ("Performance Period"). The performance fee for each Class is calculated by reference to a benchmark (each a "Performance Fee Benchmark"), which is composed of reference indices (each an "Index" and together the "Indices").

A yearly Performance Period shall: (i) in the case of the first Performance Period, commence upon the close of the initial offer period and end on the last Valuation Point of the same calendar year; and (ii) subsequent calculation periods run for a calendar year and therefore shall end on the last Valuation Point of each year.

A performance fee is calculated on a Share Class basis and shall be payable to the Investment Manager when: (i) the increase in the Net Asset Value per Share over the Performance Period is greater than the increase in the relevant Performance Fee Benchmark's performance for the same Performance Period ("Actual Out-performance"); and (ii) an Actual Out-performance (if any) at the end of the Performance Period is greater than the High Water Mark. The "High Water Mark" is defined as the highest positive percentage difference between the increase in the Net Asset Value per Share over a Performance Period and the increase in the relevant Performance Fee Benchmark's performance over the same Performance Period. The High Water Mark is set to zero per cent at the launch of the Fund. Any under-performance of the Performance Fee Benchmark in a Performance Period will be cleared before a performance fee becomes due in subsequent periods.

The performance fee shall be 10 per cent of the amount by which an Actual Out-performance (before the deduction of performance fees) exceeds the High Water Mark as aforesaid as at the end of a Performance Period, multiplied by the number of Shares in issue in that Class. For the purpose of calculating the performance fee at the end of a Performance Period, the Net Asset Value per Share shall be calculated at the Valuation Point.

The performance fee shall be calculated and accrued on each Dealing Day and paid yearly in arrears at the end of a Performance Period. The initial price at which the shares are issued will be taken as the starting price for the Performance Period. When calculating the performance fee payable, the Net Asset Value will be adjusted, as appropriate, for subscriptions, redemptions, dividends paid and any accruals of performance fee.

Where a performance fee is payable it will be based on the Net Asset Value of a Class as at the end of each Performance Period. As a result, a performance fee may be paid in respect of unrealised gains, which may subsequently never be realised. The performance fee calculation will be verified by the Depositary.

As described above, the performance fee for each Class is calculated by reference to a Performance Fee Benchmark. For the Class B Shares, Class C Shares and Class I Shares, the Performance Fee Benchmark is composed of the following Indices using the weighting indicated:

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

10. Incentive Fees/Performance Fees (Continued)

Index	Weighting
MSCI All Country World Net Total Return Index (Bloomberg Code NDUEACWF)	50%
Bloomberg Barclays Global Aggregate Total Return Index NOK Hedged (H00038NO Index)	40%
Bloomberg Barclays Euro Treasury Bills 0-3 Months Index NOK Hedged (H18260NO Index)	10%

For the Class I Hedged Shares, the Performance Fee Benchmark is composed of the following Indices using the weighting indicated:

Index	Weighting
MSCI All Country World Net Total Return Local Index (Bloomberg Code NDLEACWF)	50%
Bloomberg Barclays Global Aggregate Total Return Index NOK Hedged (H00038NO Index)	40%
Bloomberg Barclays Euro Treasury Bills 0-3 Months Index NOK Hedged (H18260NO Index)	10%

Each Index in the Performance Fee Benchmark will comprise the percentage weighting of the total Performance Fee Benchmark indicated in the relevant table above. The Performance Fee Benchmark is used solely for the purpose of calculating the performance fee. There is no guarantee that the Fund will outperform the Performance Fee Benchmark. Shareholders will be notified in advance of a change in Index weighting or change in Performance Fee Benchmark composition.

The Performance Fees accrued by the Company for the financial period ended were USD136,834 (30 June 2018: USD506,470) and the amount outstanding at 30 June 2019 was USD506,279 (30 June 2018: USD971,398).

Equalisation Credit

The equalisation credit policy is applied to the calculation of the Incentive Fee payable for certain classes in each Fund (see the Fund's relevant Supplement for further details). The Incentive Fee is calculated on a share-by-share basis so that each relevant share is charged an Incentive Fee that equates precisely with that relevant share's performance. This method of calculation ensures that (i) the Incentive Fee is charged only to those relevant shares that have appreciated in value relative to the Index, (ii) all relevant shareholders have the same amount per relevant share of the relevant class at risk in the Fund, and (iii) all shares of the same class have the same net asset value per share. If a shareholder subscribes for relevant shares at a time when the net asset value per relevant share is other than the Index Net Asset Value, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber or beneficiary of the Incentive Fee. For the financial period ended 30 June 2019 an equalisation credit of USD1,154,187 (30 June 2018: USD501,334) was applied by the Company.

11. Administration Fees and Depositary/Custodian Fees

The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company ("BNY Mellon") to act as Administrator, registrar and transfer agent and BNY Mellon Trust Company (Ireland) Limited to act as Depositary (the "Depositary"). BNY Mellon is entitled to receive out of the assets of the Funds an annual administration fee, accrued and calculated on each dealing day and payable monthly in arrears of up to 0.105% of the aggregated Net Assets. BNY Mellon is also entitled to a shareholding services fee of USD1,875 per share class per month together with agreed upon transaction charges. The Administrator is also entitled to a financial reporting fee of up to USD5,000 per set of financial statements and other out of pocket expenses out of the assets of the Funds (plus VAT thereon if any).

The Administration fee accrued for the financial period ended 30 June 2019 was USD273,194 (30 June 2018: USD387,254) and the amount outstanding at 30 June 2019 was USD116,933 (30 June 2018: USD183,387).

The Depositary is entitled to an asset based fee of up to 0.02% per annum payable monthly together with sub-custodians' fees (which will be charged at normal commercial rates) as well as agreed upon transaction charges (which will be at normal commercial rates) and other out of pocket expenses (plus VAT thereon if any).

The Depositary fee accrued for the financial period ended 30 June 2019 was USD123,946 (30 June 2018: USD104,374) and the amount outstanding at 30 June 2019 was USD37,584 (30 June 2018: USD29,855).

12. Directors' Fees and Expenses

The Directors shall be entitled to a fee in remuneration for their services at a rate to be determined from time to time by the Directors, but so that the aggregate amount of Directors' remuneration in any one year shall not exceed €15,000 (30 June 2018: €15,000) or such higher amount as may be approved by resolution of the Directors and notified to shareholders. The Directors may also be paid all travelling, hotel and other expenses, properly incurred by them, in attending and returning from meetings of the Directors or general meetings of the Company or in connection with the

Unaudited Interim Financial Statements
For the financial period 1 January 2019 to 30 June 2019

NOTES TO FINANCIAL STATEMENTS (Continued)

12. Directors' Fees and Expenses (Continued)

business of the Company. The Directors may in addition to such remuneration as aforesaid grant special remuneration to any Director who, being called upon, shall perform any special or extra services to or at the request of the Company and such remuneration will be at normal commercial rates. The Directors' fees and expenses accrued for the financial period ended 30 June 2019 was USD15,094 (30 June 2018: USD10,505) and the amount outstanding at 30 June 2019 was USD6,551 (30 June 2018: USD9,180).

13. Efficient Portfolio Management

The Company may enter into a variety of derivative instruments including, but not limited to, forward foreign exchange contracts, futures, options, swaps, contracts-for-difference, stock lending and repurchase agreements for the purposes of efficient portfolio management only, subject to the conditions and limits set out in the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations") and within any further limits laid down by the Central Bank of Ireland from time to time. In particular, the Funds may engage in forward foreign exchange contracts to provide protection against exchange rate risks, including cross-currency hedging, and in order to hedge foreign currency exposure of the underlying assets of the Funds into the base currency of the Funds or into a currency institutionally linked to the base currency. It is intended that the use of such forwards may reduce the currency risk in respect of the Funds and will better enable the Funds to manage its assets and liabilities. Futures contracts may be used to hedge or gain exposure to an increase in the value of an asset, market, currency, or deposit. Options may be used to hedge or achieve exposure to a particular market instead of using a physical security. Swaps may be used to achieve profit as well as to hedge existing long positions. Contracts-for-difference ("CFDs") are bilateral agreements to exchange the difference between opening and closing contracts, which represent the performance of an underlying share.

At the discretion of the Directors, the Funds may use financial derivative instruments as a primary investment policy and details of the investment policy will be set out in the applicable Supplement in accordance with the requirements of the Central Bank of Ireland.

For the period ended 30 June 2019 and 30 June 2018, the Company has utilised forward foreign currency contracts, contracts-for-difference, futures and options for efficient portfolio management. As at 30 June 2019, all derivatives are OTC derivatives. All open derivative positions are disclosed in the schedule of investments except for forward currency contracts which are disclosed in note 7 (d) above.

14. Directors' Interests, Connected Persons and Related Party Transactions

Fees payable to the relevant Investment Manager are disclosed in notes 9 and 10.

Depositary and Administrator

Although not deemed to be related parties under FRS 102 as they do not exercise "significant influence" over the activities of the Company, the Regulations also deem a "Depositary" and its "associated or group companies" to be "connected persons" to the Company. As such, BNY Mellon Trust Company (Ireland) Limited, the Depositary, and BNY Mellon Fund Services (Ireland) Designated Activity Company, the Administrator, are connected persons to the Company.

The Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that any transaction carried out with the Company by a promoter, manager, depositary/custodian, investment manager and/or associated or group companies of these ("connected persons") are carried out as if negotiated at arm's length and that all such transactions are carried out in the best interests of the shareholders. The Board of Directors are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in the Regulations.

Trient Dynamic Multi-Asset Fund commenced operations on 23 April 2018. Trient Dynamic Multi-Asset Fund received an initial subscription of NOK1,140,980,568 via an in-specie transfer from Trient Dynamic Balanced Fund, a sub-fund of Trient UCITS Funds (Ire) Plc, a fund with the same Investment Manager as Trient Dynamic Multi-Asset Fund. The subscription was received in form of cash of NOK110,118,304 and investments valued NOK1,030,862,264. On 26 October 2018 Trient Dynamic Multi-Asset Fund ceased to trade.

As at 30 June 2019 and 30 June 2019 the following key personnel/entities as defined within Section 33 of FRS 102 held a beneficial interest in the Funds as follows:

As at 30 June 2019 and 30 June 2018, Sector Asset Management AS, ultimate parent company of the Investment Manager, held 3 Class A EUR Shares, 2 Class A NOK Shares and 3 Class A USD Shares in Sector Healthcare Value Fund.

15. Contingent Liabilities

The Company is established as a segregated portfolio company. As a matter of Irish law, the assets of one Fund will not be available to satisfy the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability associated with segregated portfolio companies nor is there any guarantee that the creditors of one Fund will not seek to enforce such Fund's obligations against another Fund.

As at 30 June 2019 and 30 June 2018 there were no known contingent liabilities.

16. Soft Commission

There were no soft commissions for the financial periods ended 30 June 2019 or 30 June 2018.

17. IMR Regulations

In response to the CBI publishing the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (the "Investor Money Regulations" or "IMR") issued in March 2015, subscription and redemption monies will (effective from 1 July 2016), be channeled through a sub-fund cash collection account in the name of the sub-fund. Pending issue of the shares and/or payment of subscription proceeds to an account in the name of the sub-fund(s), and pending payment of redemption proceeds or distributions, the relevant investor will be an unsecured creditor of the sub-fund in respect of amounts paid by or due to it. As at 30 June 2019 and 30 June 2018 the Funds have received subscriptions in advance and these amounts are reflected on the Balance Sheet.

18. Comparative Period

The prior period comparatives are for the financial period 1 January 2018 to 30 June 2018.

20. Significant Events during the Period

There were no significant events during the period.

21. Significant Events after the Balance Sheet Date

There were no significant events after the balance sheet date.

22. Approval of Financial Statements

The financial statements were authorised for issue by the Directors on 26 August 2019.

Unaudited Interim Financial Statements For the financial period 1 January 2019 to 30 June 2019

SIGNIFICANT PORTFOLIO MOVEMENTS

In accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015, a statement of the largest changes in the composition of the Schedule of Investments during the period is provided to ensure that the shareholders can identify changes in the investments held by the Fund. These statements present the aggregate purchases and sales of an investment, exceeding 1% of the total value of purchases and sales for the period. At a minimum the largest 20 purchases and sales are listed. If the Fund enters into less than 20 purchases or sales during the period, then all transactions are presented.
