Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

DIRECTORS' REPORT

The Directors present to the shareholders their annual report and the audited financial statements of Sector Capital Funds plc (the "Company") for the financial year 1 January 2017 to 31 December 2017.

Principal Activities and Review of Business

The Company was incorporated and registered in Ireland under the Companies Act 2014 as an open-ended umbrella investment company with variable capital and with segregated liability between sub-funds on 27 September 2010 with registered number 489443. The net assets of the Company were USD426,168,899 on 31 December 2017 (31 December 2016: USD298,263,511).

The Company was authorised by the Central Bank of Ireland pursuant to European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (as amended) (the "Regulations").

As at 31 December 2017, the Company has four funds in existence (31 December 2016; three), Sector Healthcare Value Fund, Sector Sigma Nordic Fund, Sector Global Equity Kernel and Trient Dynamic Multi-Asset Fund (the "Funds"). As at 31 December 2017, Trient Dynamic Multi-Asset Fund has not commenced trading.

Sector Healthcare Value Fund commenced trading on 17 November 2010. The base currency of Sector Healthcare Value Fund is United States Dollars ("USD"). As at 31 December 2017 ten classes are subscribed to in the Fund (31 December 2016; six), Class A EUR Shares, Class A NOK Shares, Class A USD Shares, Class B EUR Shares, Class B NOK Shares, Class B SEK, Class B USD Shares, Class L NOK Shares, Class X EUR Shares and Class X USD Shares. Class A USD, Class A EUR and Class A NOK Shares were listed on the Irish Stock Exchange on 18 November 2010 and Class B NOK Shares were listed on the Irish Stock Exchange on 10 September 2013. Class B EUR Shares, Class B USD Shares, Class X EUR Shares and Class X USD Shares launched during the financial year ended 31 December 2017.

Sector Sigma Nordic Fund commenced trading on 25 June 2012. The base currency of the Fund is Norwegian Krone ("NOK"). As at 31 December 2017 six classes are subscribed to in the Fund (31 December 2016; ten), Class A NOK Shares, Class A USD Shares, Class B EUR Shares, Class B NOK Shares, Class C NOK Shares, and Class L NOK Shares. No application has been made to list the shares on any stock exchange. Class A EUR Shares, Class C SEK Shares, Class D NOK and Class D SEK Shares were fully redeemed during the financial year ended 31 December 2017.

Sector Global Equity Kernel commenced trading on 19 March 2014. The base currency of Sector Global Equity Kernel is USD. As at 31 December 2017 five classes are subscribed to in the Fund (31 December 2016: five), Class A NOK Shares, Class A USD Shares, Class P NOK Hedged Shares, Class P NOK Unhedged and Class P USD Shares. Class P USD Shares were listed on the Irish Stock Exchange on 27 March 2014.

Results, Activities and Future Developments

The results of operations are set out on page 20. A detailed review of the business and future developments for the Funds is contained in the Investment Managers' Reports on page 10.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the directors' report and the financial statements in accordance with the Companies Act 2014 and the applicable Regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the financial statements with FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland ("relevant financial reporting framework"). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act 2014.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies for the Company financial statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with the applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

DIRECTORS' REPORT (Continued)

Statement of Directors Responsibilities (Continued)

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and directors' report comply with the Companies Act 2014 and enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Director's Compliance Statement

The Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligation as set out in Section 225 of the Companies Act 2014.

The Directors confirm that:

- 1) A compliance policy document has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
- 2) Appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations, and
- 3) During the financial year, the arrangements or structures referred to in (2) have been reviewed.

Audit Information Statement

So far as each of the Directors in office at the date of approval of the financial statements are aware:

- there is no relevant audit information of which the Company's auditors are unaware; and
- the Directors have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any
 relevant audit information and to establish that the Company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with the provisions of Section 330 of the Companies Act 2014.

Accounting Records

The Directors believe that they have complied with the requirements of Section 281 to 285 of the Companies Act 2014 with regard to the accounting records by employing the resources of an administrator, BNY Mellon Fund Services (Ireland) Designation Activity Company (the "Administrator"). During the financial year the accounting records of the Company were maintained at the offices of the Administrator: BNY Mellon Fund Services (Ireland) Designated Activity Company, Riverside Two, Sir John Rogerson's Quay, Grand Canal Dock, Dublin 2.

Fair Value Directive

It is the opinion of the Board of Directors that the information required by the European Communities (Fair Value Accounting) Regulations 2004, in relation to the use by the Company of financial instruments and the financial risk management objectives and policies of the Company and the exposures of the Company to market risk, currency risk, interest rate risk, liquidity risk and credit risk is contained in the Investment Managers' Reports and note 7.

Significant events during the year

On 22 March 2017, revised supplements to the Prospectus for both Sector Sigma Nordic Fund and Sector Healthcare Value Fund were approved by the Central Bank of Ireland.

A revised Prospectus for the Company was noted by the Central Bank of Ireland on 12 July 2017.

The significant updates to the Prospectus were as follows:

- full update to the taxation sections to ensure the disclosures are in line with current industry standards and to reflect the relevant provisions of the Finance Act 2016;
- updates to reflect the coming into force of Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the "SFT Regulations") to include drafting of relevant disclosure relating to the use of total return swaps and repurchase agreements; reverse repurchase agreements, securities lending agreements and any other transactions within the scope of the SFT Regulations that the funds are permitted to engage in ("Securities Financing Transactions");

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

DIRECTORS' REPORT (Continued)

Significant events during the year (Continued)

- expanding the suite of risk factors bringing them into line with current industry standards and to include additional risk factors as necessitated by legal and regulatory changes;
- updates to reflect the power of BNY Mellon Trust Company (Ireland) Limited (the "Depositary") to delegate its depositary functions to include additional disclosure and the list of the Depositary's sub-delegates; and
- updates to reflect the change in the Company's address.

Each of the supplements for Sector Healthcare Value Fund, Sector Sigma Nordic Fund and Sector Global Equity Kernel were noted by the Central Bank of Ireland on 12 July 2017. The main updates for each of these supplements was to reflect the relevant disclosures relating to the use of total return swaps. In addition the supplement for Sector Healthcare Value Fund was updated to reflect an amended settlement date in respect of subscriptions.

Effective 21 December 2017, the Central Bank of Ireland noted the supplement for Trient Dynamic Multi-Asset Fund, a new fund of the Company. As at 31 December 2017, the Fund has not yet launched.

There were no other significant events during the year.

Significant events after the balance sheet date

On 2 January 2018, a revised supplement to the Prospectus for Sector Global Equity Kernel was approved by the Central Bank of Ireland. The main updates related to:

- Deletion of the preliminary redemption charge;
- Updates to the management fee payable to the Investment Manager;
- Deletion of the total expense ratio;
- Clarification that the Fund shall continue to be responsible for expenses, including the operating expenses related to
 researching, implementing, carrying out and disposing of specialised and specific investment research for the Fund, including
 amounts payable to third party consultants.

Trient Dynamic Multi-Asset Fund is scheduled to commence operations 20 April 2018.

There were no other significant events after the balance sheet date.

Directors

Effective 24 August 2017, Paul Dobbyn resigned as a Director and Conor Walsh was appointed as a Director. The current Directors are listed below:

Michael Boyce

Lars Tell

Conor Walsh

Directors' and Secretary's Interests

The Directors and Secretary and their families had no interest in the shares of the Company at 31 December 2017, other than as disclosed below:

As at 31 December 2017, Lars Tell, Director of the Company held 89 Class L NOK in Sector Healthcare Value Fund (2016: 48) and 91 Class L NOK Shares in Sector Sigma Nordic Fund (2016: 91).

Dividends

Under the Articles of Association dividends may be paid out of the profits. During the financial year ended 31 December 2017, no dividends were paid (2016; nil).

Corporate Governance Statement

The Company is subject to and complies with the Regulations and the Listing Rules of the Irish Stock Exchange, as applicable to investment funds.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

DIRECTORS' REPORT (Continued)

Corporate Governance Statement (Continued)

The Board has adopted the voluntary Irish Funds ("IF") Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies, issued 14 December 2011 (the "Code") with effect from 11 December 2012. The Board has reviewed and assessed the measures included in the Code and considers its corporate governance practices and procedures since the adoption of the Code as consistent therewith.

The Company is subject to corporate governance practices imposed by:

- 1. The Irish Companies Acts 2014 and the Regulations which are available for inspection at the registered office of the Company and may also be obtained at www.irishstatutebook.ie.
- The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland.
- 3. The Central Bank of Ireland in their Regulations which can be obtained from the Central Bank of Ireland's website at: www.centralbank.ie and are available for inspection at the registered office of the Company.
- 4. The Irish Stock Exchange ("ISE") through the ISE Code of Listing Requirements and Procedures which can be obtained from the ISE's website at www.ise.ie.

Financial Reporting Process - description of main features

The Board is ultimately responsible for overseeing the establishment and maintenance of adequate internal control and risk management systems of the Company in relation to the financial reporting process. As the Company has no employees and two of the Directors serve in a non-executive capacity, all functions including the preparation of the financial statements have been outsourced. The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company, as its administrator consistent with the regulatory framework applicable to investment fund companies such as the Company.

On appointing the Administrator, the Board noted that it was regulated by the Central Bank of Ireland and, in the Board's opinion, had significant experience as an administrator. The Board also noted the independence of the Administrator from the Company's Investment Managers, Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The annual and interim financial statements of the Company are required to be approved by the Board of the Company and filed with the Central Bank of Ireland and the Irish Stock Exchange. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board's appointment of an administrator independent of the investment manager to the Company and which is regulated by Central Bank of Ireland is intended to mitigate though not eliminate the risk of fraud or irregularities which may impact the financial statements of the Company.

Monitoring

The Board receives regular presentations and reviews reports from the Depositary, Investment Manager and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address any control weaknesses identified and measures recommended by the independent auditors.

Capital structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital. There are no restrictions on voting rights.

For the appointment and replacement of Directors, the Company is governed by its Articles of Association, Irish Statute comprising the Companies Acts 2014, the Regulations, and the Listing Rules of the Irish Stock Exchange as applicable to investment funds. The Articles of Association themselves may be amended by special resolution of the shareholders.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017.

DIRECTORS' REPORT (Continued)

Corporate Governance Statement (Continued)

Composition and operation of the board of directors

There are three Directors currently, two of whom are non-executive and are independent of the Investment Manager as required by the Irish Stock Exchange Listing Rules for investment funds. None of the Directors have entered into an employment or service contract with the Company. All related party transactions during the year are detailed in note 15 to the financial statements. The Articles of Association do not provide for retirement of Directors by rotation. However, the Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Irish Companies Act 2014. The Board meets at least quarterly. There are no subcommittees of the Board.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. Subject to its supervision and direction, the Board has delegated the day to day administration of the Company to the Administrator and the investment management and distribution functions to Sector Omega AS, Sector Gamma AS and Sigma Fondforvaltning AS as the Investment Managers. The Company has appointed BNY Mellon Trust Company (Ireland) Limited as the Depositary to the Company with responsibility for the safekeeping of the assets of the Company.

Shareholder meetings

The convening and conduct of shareholders' meetings are governed by the Articles of Association of the Company and the Companies Act 2014. Although the Directors may convene an extraordinary general meeting of the Company at any time, the Directors are required to convene an annual general meeting of the Company within fifteen months of the date of the previous annual general meeting. Shareholders representing not less than 10 percent of the paid up share capital of the Company may also request the Directors to convene a shareholders' meeting. Not less than twenty one days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting unless the auditors of the Company and all the shareholders of the Company entitled to attend and vote agree to shorter notice.

On a show of hands every shareholder who is present in person or by proxy shall have one vote. On a poll every shareholder present in person or by representative or proxy shall have one vote for every share for which is registered in the name of the shareholder. Such voting rights may be amended in the same manner as any other provision of the Trust Deed.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. An ordinary resolution of the Company requires a simple majority of the votes cast by the shareholders voting in person or by proxy at the meeting at which the resolution is proposed. A special resolution of the Company requires a majority of not less than 75% of the shareholders present in person or by proxy and voting in a general meeting in order to pass a special resolution including a resolution to amend the Articles of Association.

Decision not to establish an Audit Committee

The Directors have decided not to establish an audit committee pursuant to section 167(2)(b) of the Companies Act 2014. This has been decided on the basis of the following:

- a) the nature, scale and complexity of the Company's business range of services and activities undertaken in the course of that business;
- b) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company and carry out certain functions on its behalf, and
- c) the procedures in place for the review, approval and circulation of the audited financial accounts and statements which are appropriate for a self-managed investment company pursuant to the Regulations.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

DIRECTORS' REPORT (Continued)

Independent Auditors

Deloitte, Chartered Accountants and Statutory Audit Firm, have expressed their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

On behalf of the Board of Directors

Michael Boyce, Director

Date: 17 April 2018

Conor Walsh, Director

BNY Mellon Trust Company (Ireland) Limited Unit 6100, Avenue 6000, Airport Business Park Cork, T12 XV22, Ireland T +353 21 438 0000 F +353 21 438 0295

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS DATED 17 APRIL 2018

For the period from 01 January 2017 to 31 December 2017 (the "Period")

BNY Mellon Trust Company (Ireland) Limited (the "Depositary" "us", "we", or "our") has enquired into the conduct of Sector Capital Funds plc (the "Company") for the Period, in its capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as Depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that Period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as Depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

For and on behalf of BNY Mellon Trust Company (Ireland) Limited,

One Dockland Central,

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

INVESTMENT MANAGERS' REPORTS

Sector Global Equity Kernel

For the first time in history, in 2017 the global equity market delivered a positive return every single month of the year. Furthermore, the low volatility combined with a strong 24% (MSCI ACWI in USD) return led to the highest Sharpe Ratio ever recorded. Even on a longer 24-month rolling basis, the broader market recorded an all-time high of 83% positive months. On a regional basis, the performance of the market was led by the US and Emerging markets, whilst technology and financials were the largest contributors on a sub-sector basis.

For the year, the Sector Global Equity Kernel Fund returned 21.1% (Class P USD). Whereas the return was somewhat weaker than the broader market, the average upside capture was 88%. All the sector books delivered positive returns during the year, with technology, healthcare and industrials being the brightest stars. In regional terms, Japan and Europe (ex UK) were the winners, and with the exception of Canada, all regions contributed positively. On a single-stock basis, Mineral Resources and Regis Resources were the largest contributors to performance.

During the fourth quarter, we increased the Fund's exposure to equities expected to profit from reflation. This does not mean that we are betting on a continued rally in the broader market, rather it is a reflection of a tilt towards equities we believe will benefit from higher inflation and sustained growth during the first half of 2018. As a result, the Fund's ex-ante volatility is now slightly higher than the broader markets. Likewise, the Fund's ex-ante beta is the highest since inception. Whereas said stocks have displayed a higher historical volatility, we think they are actually less risky than implied by their statistical volatility estimations. In addition, in order to broaden diversification of the Fund, the exposure towards the US market has been reduced.

Sector Healthcare Value Fund

The healthcare sector ended the year up 19.8%, compared to 23.1% for the broader market. Despite the underperformance, it was still a good year for healthcare on an absolute basis. Some of the core themes and events that drove the sector's performance during the year included politics, innovation, momentum and M&A. From a political perspective, President Trump and the Republican Party may have failed in their attempt to repeal/replace the ACA (Affordable Care Act), but they did succeed in passing new tax legislation which should on the whole benefit healthcare companies. However, the stand out positive for the sector during the last twelve months was innovation with a total of 46 NME's (New Molecular Entities) being approved. It was not only the total number of drug approvals that was impressive during the year, but also the types of drugs and the diseases that they tackled. After 17 years of waiting, we finally had the first gene therapy entering the market and in the process taking personalised medicines to a new level.

The Sector Healthcare Value Fund ended up 18.4% for the year. Despite its strong return on an absolute basis, the fund underperformed the global healthcare index by 1.4% in 2017.

On a single stock basis, the largest contributors to the Fund's performance were Abbot Labs, Baxter Intl and Anthem, whilst Glaxosmithkline, Lexicon and Shire represented the largest drag.

As we enter 2018, we hope healthcare stocks' performance will be more news flow driven rather than the momentum and sentiment factors that dominated large parts of 2017. We expect some of the headwinds the sector faced last year to persist including price pressure and to a lesser degree political uncertainty from Washington. Disruption is also a theme that is likely to affect the sector going forward. On the positive side, we expect innovation to remain the core value driver for the sector with the new pro approval FDA leadership helping to further clear backlogs allowing a greater number of new branded and generic drugs to come to the market. Although both the services and medical technology companies were very active from an M&A standpoint in 2017, the biopharma companies were once again noticeable by their absence with their deal value down by 40% versus 2016 levels. We expect this trend to reverse as the pressure for large biopharma companies to gain access to new technologies has only increased as the next wave of patent expirations grows ever closer.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

INVESTMENT MANAGERS' REPORTS (Continued)

Sector Sigma Nordic Fund

For the full year 2017, the Sector Sigma Nordic Fund fell by 5.5% (Class A NOK figures). In comparison, the Absolute UCITS European Equity (long/short) Index was up 3.6% and the VINX Nordic Benchmark (NOK) rose 19.2%. The Fund's currency exposure is hedged, and a sharp decline in the value of the Norwegian krone during 2017 had a significant negative impact on the year's performance. The Norwegian krone fell 8,3% versus the Euro and 5,7% versus the Swedish krone respectively.

Apart from the unfavorable impact of currency movements, the Fund's poor absolute and relative performance during 2017 was largely a result of two thematic investment theses we were positioned for that did not play out as expected. Entering the year, the long book included several individual names within the energy sector, both oil producers and oil service providers, which we believed would benefit from an increase in oil prices and expectations of a pick-up in capex within the sector after a multi-year drought. However, during the first half of 2017 oil prices fell nearly 20% up until June, forcing us out of our energy longs due to stop-loss discipline precisely as oil prices were and energy equities were bottoming. On the short side, we had positioned the Fund at the beginning of the year for a further rise in interest rates, shorting a basket of bond proxies. Unfortunately, interest rates backed up, and credit spreads narrowed further, during the first half of the year, despite signs of increased economic growth momentum and a shift in central bank rhetoric towards tapering of monetary stimulus.

As we have noted in recent months, the current economic upswing is extremely broad-based, unlike several other cyclical bounces after 2010, all of which proved to be shallow and short lived. The most recent set of both manufacturing and service PMIs suggest strong cyclical tailwinds for the world economy going into 2018. Growth momentum accelerated towards the end of 2017 and forward-looking economic indicators are now perched at multi-year highs. What has been lacking in the cyclical bounces since 2010 has been a meaningful boost in business capex. However, incoming data on capital investment, especially in the developed economies, suggest a dramatic improvement in recent months.

The J.P. Morgan Global All-Industry Output Index ended the year at 54.4, compared to 53.4 as at the end of 2016. The December survey saw the steepest increase in new business in three-and-a-half years, underpinning the impression that a late-cyclical capital spending phase is underway. However, potential earnings growth for several industrial companies in the Nordic region is probably underestimated. In addition, the sharp price gains seen for several leading commodities, such as oil, select industrial metals and forest products, are not fully reflected in several commodity-linked Nordic equity names. As a result, the Fund has long positions in a number of commodity-linked names, and has added to exposure in this space.

In light of the relative underperformance of Nordic equity markets over the past two months, despite the ongoing cyclical boom in the global economy, we still believe the stage is set for a sharp snapback in relative and near-term Nordic equity performance. With the reflation trade on again, Nordic equity markets can be expected to outperform. In our view, the major risk in the world today remains the move from synchronised economic growth to synchronised liquidity tightening. For now, economic growth momentum trumps liquidity tightening, as the latter appears to be evolving at a snail's pace in light of still very subdued inflationary pressures. The Fund's long book remains concentrated in sectors that historically outperform towards the end of a business cycle upswing, specifically industrial, materials and energy companies that are leveraged to growth and increased capex. Our short book comprises individual names that on the whole offset long positions within the same sector. We continue to use index put positions to protect the fund's capital and to limit downside in the event of a sudden equity market correction.

January 2018

Deloitte Chartered Accountants & Statutory Audit Firm

Independent auditor's report to the shareholders of Sector Capital Funds plc

Report on the audit of the financial statements

Opinion on the financial statements of Sector Capital Funds plc (the 'Company')

In our opinion the financial statements:

• give a true and fair view of the assets, liabilities and financial position of the Company as at financial year 31 December 2017 and of the profit for the financial year then ended; and

• have been properly prepared in accordance with the relevant financial reporting framework and, in particular, with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (as amended).

The financial statements we have audited comprise:

- · the Balance Sheet;
- the Profit and Loss Account;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares;
- Schedule of Investments; and
- the related notes 1 to 23, including a summary of significant accounting policies as set out in note 2.

The relevant financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("the relevant financial reporting framework").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are described below in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, including the Ethical Standard issued by the Irish Accounting and Auditing Supervisory Authority, as applied to public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Summary of our audit approach

Key audit matters	The key audit matters that we identified in the current year were: • Valuation of Investments • Existence of Investments
Materiality	The materiality that we used in the current year was 1% of average net assets calculated in respect of each Sub Fund.
Scoping	The scope of our key audit matters have been described below.
Significant changes in our approach	There have been no significant changes in our approach from our prior year audit.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the directors' use of the going concern basis of accounting in preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Independent auditor's report to the shareholders of Sector Capital Funds plc

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current financial year and include the most significant assessed risks of material misstatement (whether or not due to fraud) we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter Description	How the scope of our audit responded to the key audit matter
Valuation of investments For the finanical year end 31 December 2017, the investments of the Company amount to USD 409m making up 96% of net assets of €426m. The valuation of investments is considered a key audit matter as the investments represent a significant balance on the Statement of Financial Position. This is also the main driver of the Company's performance and has been identified as a significant risk of material misstatement. There is a risk that investments traded on an exchange or a secondary market may not be valued correctly in accordance with FRS 102. Refer also to note 7 in the financial statements.	 We obtained an understanding and assessed the design of the key controls that have been implemented over the valuation process for investments. We obtained the ISAE Report relating to BNY Mellon Fund Services (Ireland) Designated Activity Company and identified the key controls in place over the valuation process and reviewed those key controls for any exceptions. We considered if the Company's valuation policy for investments is in line with FRS 102. We have independently valued all exchange-traded securities using our own market feeds. We compared the prices published by independent pricing sources to the investment portfolio.
Existence of investments The existence of investments is considered a key audit matter as the investments represent a significant balance on the Statement of Financial Position. The existence of the Funds' investments is crucial to ensuring the financial statements are free from material misstatement. There is a risk that the investments may not exist at year end. Refer also to note 7 in the financial statements.	 We obtained an understanding and assessed the design of the key controls that have been implemented over the investment reconciliation process. We obtained the ISAE Report relating to BNY Mellon Fund Services (Ireland) Limited Designated Activity Company and identified the key controls in place over the reconciliation process and reviewed those key controls for any exceptions. We obtained independent confirmations from the Depository at the financial year end and agreed the amounts held to the investment portfolio. We tested a sample of reconciling trades to ensure that they have been recorded in the correct period including a review of a sample of unsettled trades.

Our audit procedures relating to these matters were designed in the context of our audit of the financial statements as a whole, and not to express an opinion on individual accounts or disclosures. Our opinion on the financial statements is not modified with respect to any of the risks described above, and we do not express an opinion on these individual matters.

Independent auditor's report to the shareholders of Sector Capital Funds plc

Our application of materiality

We define materiality as the magnitude of misstatement that makes it probable that the economic decisions of a reasonably knowledgeable person, relying on the financial statements, would be changed or influenced. We use materiality both in planning the scope of our audit work and in evaluating the results of our work.

We determined materiality for each Sub Fund to be 1% of average net assets. We have considered the average net assets to be the critical component for calculating materiality because the main objective of the Company is to provide investors with a total return. We have considered quantitative and qualitative factors such as understanding the Company and its environment, history of mistatetements, complexity of the Sub Funds and reliabity of the control environment.

We agreed with the Board of Directors (the "Board") that we would report to the Board any audit differences in excess of 5% of materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds. We also report to the Board on disclosure matters that we identified when assessing the overall presentation of the financial statements.

An overview of the scope of our audit

Our audit is a risk based approach taking into account the structure of the Company, types of investments, the involvement of the third parties service providers, the accounting processes and controls in place and the industry in which the Company operates. The Company is incorporated as an open-ended investment Company with variable capital and is organised under the laws of Ireland as a public limited company pursuant to the Irish Companies Act 2014. The Company is authorised by the Central Bank of Ireland (the "Central Bank") as a UCITS (Undertaking for Collective Investment in Transferable Securities) pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (as amended). The Company is organised as an umbrella fund with segregated liability between Sub Funds. We assess the risks of each Sub Fund separately. We have conducted our audit based on the books and records maintained by the administrator BNY Mellon Fund Services (Ireland) Designated Activity Company at Riverside Two, Sir John Rogerson's Quay, Grand Canal Dock, Dublin 2.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Independent auditor's report to the shareholders of Sector Capital Funds plc

Responsibilities of directors

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view and otherwise comply with the Companies Act 2014, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (Ireland), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause the entity (or where relevant, the group) to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

/Continued from previous page

Independent auditor's report to the shareholders of Sector Capital Funds plc

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that the auditor identifies during the audit.

This report is made solely to the Company's shareholders, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders as a body, for our audit work, for this report, or for the opinions we have formed.

Report on other legal and regulatory requirements

Opinion on other matters prescribed by the Companies Act 2014

Based solely on the work undertaken in the course of the audit, we report that:

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.
- In our opinion the information given in the directors' report is consistent with the financial statements and the directors' report has been prepared in accordance with the Companies Act 2014.

Matters on which we are required to report by exception

Based on the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the directors' report.

We have nothing to report in respect of the provisions in the Companies Act 2014 which require us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by law are not made.

/Continued from previous page

Independent auditor's report to the shareholders of Sector Capital Funds plc

Other matters which we are required to address

We were appointed by the Board on 30 November 2011 to audit the financial statements for the financial year end 31 December 2011 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 7 years, covering the years ending 31 December 2011 to 31 December 2017.

The non-audit services prohibited by IAASA's Ethical Standard were not provided and we remained independent of the Company in conducting the audit.

Our audit opinion is consistent with the additional report to the Board we are required to provide in accordance with ISA (Ireland)7260.

Brian Forrester

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS

1. Organisation and Structure

Sector Capital Funds plc (the "Company") was incorporated and registered in Ireland with registered number 489443 and is governed by the Companies Acts 2014 as an open-ended umbrella investment company with variable capital and with segregated liability between sub-funds on 27 September 2010. The Company is authorised by the Central Bank of Ireland pursuant to European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015 (the "Regulations").

As at 31 December 2017, Company has four funds in existence (31 December 2016: three), Sector Global Equity Kernel, Sector Healthcare Value Fund and Sector Sigma Nordic Fund and Trient Dynamic Multi-Asset Fund (the "Funds"). As at 31 December 2017, Trient Dynamic Multi-Asset Fund has not commenced trading.

Sector Healthcare Value Fund commenced trading on 17 November 2010. The base currency of Sector Healthcare Value Fund is U.S. Dollars ("USD"). As at 31 December 2017, ten classes are currently subscribed to in the Fund (31 December 2016: six), Class A EUR Shares, Class A NOK Shares, Class B SEK, Class B USD Shares, Class L NOK Shares, Class X EUR Shares and Class X USD Shares, Class A EUR Shares, Class A NOK Shares and Class A USD Shares were listed on the Irish Stock Exchange on 18 November 2010 and Class B NOK Shares on 10 September 2013. Class B EUR Shares, Class B USD Shares, Class X EUR Shares and Class X USD Shares launched during the financial year ended 31 December 2017.

Sector Sigma Nordic Fund commenced trading on 25 June 2012. The base currency of Sector Sigma Nordic Fund is Norwegian Krone ("NOK"). As at 31 December 2017, six classes are currently subscribed to in the Fund (31 December 2016: ten), Class A NOK Shares, Class A USD Shares, Class B EUR Shares, Class B NOK Shares, Class C NOK Shares, and Class L NOK Shares. No application has been made to list the shares on any stock exchange. Class A EUR Shares, Class C SEK Shares, Class D NOK and Class D SEK Shares were fully redeemed during the financial year ended 31 December 2017.

Sector Global Equity Kernel commenced trading on 19 March 2014. The base currency of Sector Global Equity Kernel is U.S. Dollars ("USD"). As at 31 December 2017, five classes are currently subscribed to in the Fund (31 December 2016; five), Class A NOK Shares, Class A USD Shares, Class P NOK Hedged Shares, Class P NOK Unhedged Shares and Class P USD Shares. Class O NOK Shares were fully redeemed during September 2016. Class P USD Shares were listed on the Irish Stock Exchange on 27 March 2014.

Investment Objective

The investment objective of Sector Healthcare Value Fund is to achieve attractive long term investment returns relative to the MSCI Daily TR World Net Health Care USD (the "Index"). The Index is a capitalisation weighted index that monitors the performance of health care stocks from around the world. The Fund may invest in equities and financial instruments that are not part of the Index. There can be no guarantee that the investment objective of the Fund will be achieved.

The investment objective of Sector Sigma Nordic Fund is to generate attractive risk adjusted return for its investors, primarily through investment in Norway, Sweden, Denmark, Finland and Iceland (the "Nordic Region") with the aim of generating positive return over time in rising as well as falling equity markets. There can be no guarantee that the investment objective of the Fund will be achieved.

The investment objective of the Sector Global Equity Kernel is to maximise long-term total return relative to MSCI ACWI Index (the "Index"). The Index is a free float-adjusted market capitalisation weighted index that is designed to measure the equity market performance of developed and emerging markets. The MSCI ACWI consists of 45 country indices comprising 24 developed and 21 emerging market country indices. There can be no guarantee that the investment objective of the Fund will be achieved.

2. Summary of Significant Accounting Policies

The financial statements have been prepared in accordance with the Financial Reporting Standard 102 ("FRS 102"), the Financial Reporting Standard applicable in the UK and Republic of Ireland, the Companies Acts 2014, the Regulations and the listing rules of the Irish Stock Exchange.

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss in accordance with the European Communities (Fair Value Accounting) Regulations 2011.

The Company has availed of certain exemptions available to open-ended investment funds in FRS 102 not to prepare a cash flow statement in paragraph 7.1A of FRS 102.

The preparation of financial statements in accordance with FRS102 requires Directors to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the financial period. Actual results could differ from those estimates.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies (Continued)

(a) Portfolio valuation

Investment transactions

(i) Classification

The Company classifies all of its investments as financial assets or financial liabilities at fair value through profit or loss. These financial instruments are designated on the basis that their fair value can be reliably measured and their performance has been evaluated on a fair value basis in accordance with the risk management and/or investment strategy as set out in the Company's Prospectus.

(ii) Recognition

The Company recognises financial assets and financial liabilities on the date it becomes party to the contractual provisions of the instrument. Investment transactions are accounted for on a trade date basis at cost. Purchases and sales of securities are accounted for on the trade date on which the transaction takes place. Transaction costs are expensed immediately to the Profit and Loss Account and not capitalised as part of cost of the investment.

(tii) Measurement

Financial assets and financial liabilities held for trading are measured at fair value. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arms length transaction.

Realised gains and losses on sales of investments are calculated on a First-In, First-Out ("FIFO") basis. Unrealised gains and losses on investments are recognised in the Profit and Loss Account. Forward foreign currency contracts and any other instruments held by the Company and traded on an exchange will be measured at fair value based on the last reported traded price on such regulated market as at the relevant valuation point.

If an investment is quoted, listed or normally dealt in on more than one market, the Directors may, in their absolute discretion, select any of such markets for the valuation purposes.

(iv) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

(b) Forward foreign currency contracts

The unrealised gain or loss on open forward foreign currency contracts is calculated by reference to the difference between the contracted rate and the rate to close out the contract. Realised gains or losses include net gains on contracts which have been settled or offset by other contracts.

(c) Options

When the Company writes or purchases put or call options, an amount equal to the premium received or paid is recorded as a liability or an asset and is subsequently marked-to-market based on quoted market prices in the Balance Sheet. Premiums received or paid from writing or purchasing put or call options which are expired or were unexercised are recognised on the expiration date as realised gains or losses in the Profit and Loss Account. If an option is exercised, the premium received or paid is included with the proceeds or the cost of the transaction to determine whether the Company has realised a gain or loss on the related investment transaction in the Profit and Loss Account. When the Company enters into a closing transaction, the Company will realise a gain or loss in the Profit or Loss Account depending upon whether the amount from the closing transaction is greater or less than the premium received or paid.

(d) Contracts-for-difference

A contract-for-difference ("CFD") is a contract between two parties, buyer and seller, stipulating that the seller will pay to the buyer the difference between the current value of an asset (a security, instrument, basket or index) and its value at contract time. The payment flows are usually netted against each other, with the differences being paid by one party to the other. The unrealised gain or loss depends upon the prices at which the underlying financial instruments of the CFD is valued at and is included in the Profit and Loss Account.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies (Continued)

(e) Foreign exchange translation

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency of Sector Global Equity Kernel is the United States Dollar ("USD"), due to the fact that the majority of the Fund's assets are denominated in USD and that a substantial portion of capital is issued in USD. The functional currency of Sector Healthcare Value Fund is the United States Dollar ("USD"), due to the fact that the majority of the Fund's assets are denominated in USD and that a substantial portion of capital is issued in USD. The functional currency of Sector Sigma Nordic Fund is Norwegian Krone ("NOK"), due to the fact that the majority of the Fund's assets are denominated in NOK and that a substantial portion of capital is issued in NOK. Each Fund has adopted its functional currency as the presentation currency for these financial statements. Assets and liabilities expressed in foreign currencies are converted into the functional currency of each Fund using the exchange rates prevailing as at the balance sheet date. Transactions in foreign currencies are translated into the Fund's functional currency at exchange rates ruling at the transaction dates. Gains and losses on foreign exchange transactions are recognised in the Profit and Loss Account in determining the result for the period.

At 31 December 2017, in accordance with FRS 102, a period end exchange rate of NOK/USD 0.1223 (31 December 2016; NOK/USD 0.1162) was used to translate the Balance Sheet of Sector Sigma Nordic Fund in arriving at the total USD value for the Company in the financial statements.

At 31 December 2017, the Profit and Loss Account and Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares of Sector Sigma Nordic Fund have been prepared using an average rate of exchange of NOK/USD 0.1210 (31 December 2016: NOK/USD 0.1192) in arriving at the total USD value for the Company in the financial statements. This results in a foreign currency translation profit/loss in the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares when compared to the NOK/USD rate used at year end. The adjustment recorded in the Statement of Changes in Net Assets attributable to holders of Redeemable Participating Shares for the financial year ended 31 December 2017 was a gain of USD2,736,894 (31 December 2016: gain USD3,305,840).

(f) Offsetting financial instruments

Financial assets and financial liabilities may be offset and the net amount reported in the Balance Sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. As at 31 December 2017 and 31 December 2016, no offsetting has been presented in the Balance Sheet.

(g) Income

Dividends are recognised as income on the dates that securities are first quoted "ex-dividend" to the extent information thereon is reasonably available to the Company. Interest income is accrued on a daily basis. Deposit interest is recognised as income on an accruals basis.

(h) Expenses

Operating expenses are accounted for on an accruals basis.

(i) Net asset value per share

The Net Asset Value per Share of each class is calculated by dividing the Net Asset Value attributable to a class by the number of shares of a class in issue as at the relevant valuation point.

(j) Redeemable participating shares

Shares issued by each Fund provide shareholders with the right to redeem their shares, for cash equal to their proportional share of the net asset value of the Fund and are classified as financial liabilities in accordance with FRS 102. The Fund does not meet the requirement to be classified as equity as the Fund offers different classes of shares with varying rights attached to them. The liabilities to shareholders are presented on the Balance Sheet as "Net assets attributable to holders of Redeemable Participating Shares" and are determined based on the residual assets of the Fund after deducting the Fund's other liabilities.

(k) Amounts due from/to broker

Amounts due from/to broker relate to the outstanding amounts pending settlement on forward foreign currency contracts and upfront cash payments for fully funded contracts-for-difference.

(I) Taxation

The Company incurs dividend withholding tax and other taxation imposed by certain countries on investment income and gains on investments. Dividend income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in Profit and Loss Account.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

2. Summary of Significant Accounting Policies (Continued)

(m) Transaction costs

Transaction costs are costs incurred to acquire financial assets or financial liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs, when incurred, are immediately recognised in profit or loss as an expense. For the financial year ended 31 December 2017 Sector Global Equity Kernel incurred transaction costs of USD587,596 (31 December 2016: USD487,994), Sector Healthcare Value Fund incurred transaction costs of USD63,473 (31 December 2016: USD63,206) and Sector Sigma Nordic incurred transaction costs of NOK2,139,689 (31 December 2016: NOK2,409,202).

(n) Cash

Cash at bank and brokers represents, cash and cash equivalents, with original maturities of three months or less held with the Depositary,

3. Dividend and Distribution Policy

The Directors do not currently intend to pay dividends. Accordingly, the price of the shares shall rise as income and capital gains accrue.

4. Taxation

The Company will not be liable to tax in respect of its income and gains, other than on the occurrence of a chargeable event. Generally a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or on the ending of a 'Relevant Year', a 'Relevant Year' being an eight year period beginning with the acquisition of the shares by the shareholders and each subsequent year of eight years beginning immediately after the preceding relevant year.

A chargeable event does not include:

- (i) Any transactions in relation to shares held in a recognised clearing system; or
- (ii) An exchange of shares representing a fund for another fund: or
- (iii) An exchange of shares arising on a qualifying amalgamation or reconstruction of a Fund with another fund; or
- (iv) Certain exchanges of shares between spouses and former spouses.

A chargeable event will not occur in respect of shareholders who are neither resident nor ordinarily resident in Ireland and who have provided the Company with a relevant declaration to that effect.

In the absence of an appropriate declaration, the Company will be liable to Irish Tax on the occurrence of a chargeable event. There were no chargeable events during the year under review. Capital gains, dividends and interest received may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

5. Exchange Rates

The following exchange rates (against USD) were used to convert the investments and other assets and liabilities denominated in currencies other than USD as at 31 December 2017 and 31 December 2016:

Currency	31 December 2017	31 December 2016
Australian Dollar	1.2784	1.3810
Brazilian Real	3.3167	3.2552
British Pound	0.7392	0.8093
Canadian Dollar	1,2530	1.3410
Chinese Remninbi	n/a	6.9493

As at 31 December 2017, Sector Global Equity Kernel pledged USD1,200,740 as collateral with BNY Mellon and Sector Sigma Nordic Fund pledged NOK2,395,804 as collateral with Goldman Sachs (31 December 2016: Sector Global Equity Kernel pledged USD1,590,797 and Sector Sigma Nordic Fund pledged NOK13,836,044 as collateral with Goldman Sachs).

Any overdrafts noted above are temporary in nature as they relate to timing differences only.

7. Financial Instruments and Associated Risks

Included in the Company's financial instruments, but not limited to, are global equities and equity related securities (including but not limited to American Depositary Receipts, Global Depositary Receipts, European Depositary Receipts and other equity based derivatives) that shall be listed or traded on any market.

The main risks arising from the Company's financial instruments are market price, liquidity, foreign currency and credit risks.

The Market Risk Group ("MRG") functions across all Sector Investment Manager entities and the group is responsible for defining risk management related limits ("soft limits") in addition to the investment restrictions found in the Prospectus and related supplements, in cooperation with the respective Investment Manager, securing that the Funds have a portfolio construction and risk exposure that are in line with the intentions of the individual Funds. The limits are generally related to exposure towards single positions and sectors, total portfolio exposure and Value-at-Risk ("VAR"). MRG consists of the CEO of Sector Asset Management AS (leader of MRG), Head of Fund Operations and CEO of Sector Fund Services AS. The Head of Fund Operations has the mandate to give short term exceptions to the risk limits set by MRG if he/she finds that under certain market conditions, the limits have unintended adverse effects, for example in extreme market conditions. Such exceptions are reported to the other members of MRG and to the Group Chief Compliance Officer.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(a) Market price risk

Market price risk arises from uncertainty concerning future prices of financial instruments. The consequence might be a decline in the Fund's value. The risk related to the Funds – i.e. a combination of the probability of loss and the consequences – must be weighed against the potential gain for the Fund. To limit the risk, the Funds are both diversified and constructed through fundamental analyses of the expected behaviour and volatility of the individual instruments while following each Fund's investment objective.

Value-at-Risk

Value-at-Risk (VaR) represents the potential loss one might suffer given a defined confidence interval and time horizon. The measure is one of the main risk measures for the Company under normal market conditions.

The main risk management tool for VaR calculations was Bloomberg. The Bloomberg VaR calculation is based on Monte Carlo simulations at a 95% confidence interval i.e. that one in every 20 days is expected to be above this measure in the long run. The MRG utilises the commitment approach to calculate global exposure.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(b) Interest rate risk

Interest rate risk is the risk (variability in value) borne by an interest-bearing asset, due to variability of interest rates. In general, as rates rise, the price of a fixed rate bond will fall, and vice versa. Interest rate risk is commonly measured by the bond's duration. For the financial year ended 31 December 2017 and 31 December 2016 the Funds have not invested in interest bearing assets, other than cash amounts. As at 31 December 2017 and 31 December 2016, the Funds do not have any significant fair value interest rate risk exposure.

Tables outlining the currency and interest exposure as at 31 December 2017 and 31 December 2016 are outlined in note 7(d).

(c) Liquidity risk

Liquidity risk is linked to the Funds having to realise assets in unfavourable market conditions with large losses as a consequence due to for example, redemptions in a Fund or a collapse in long asset values reducing the collateral held by counterparties leading to margin calls, if applicable. This means that there are two aspects that are monitored; what is the probability of the situation occurring and how fast can the Funds realise their positions without significant adverse effects on the value of the positions.

Liquidity of partfolio

The Company's Prospectus provides for daily subscription and redemption of shares in the Funds, therefore the Funds are exposed to a liquidity risk of meeting shareholder redemptions on a daily basis. The majority of the Funds' assets are comprised of publicly traded securities and are thus relatively easily realised. Still, with each Fund having positions in small cap equities, the ability of a Fund to realise assets within a short year of time without a large negative impact on the value of the assets is important. Some of the recognised exchanges on which a Fund may invest may prove to be less liquid or highly volatile from time to time. The Funds may invest a limited proportion of their assets in unquoted securities.

For the financial year ended 31 December 2017 and 31 December 2016, the Funds held very liquid assets and liquidity was monitored daily by the Investment Manager.

The reports below are snapshots of the estimated liquidity of the Funds as at 31 December 2017;

(d) Foreign currency risk

Foreign currency risk is in reality a sub-group of market risk, but with its own idiosyncrasies, both with respect to a Fund's portfolio as well as the investor classes denominated in different currencies. Certain currency related transactions may, for example, be employed by the Funds in order to hedge against foreign exchange risk subject to the conditions and limits laid down by the Central Bank of Ireland. Such transactions include forward foreign currency contracts and may for example be executed in cases where an investment is in a currency other than the Fund's functional currency.

A substantial portion of the financial assets of the Funds are denominated in currencies other than the relevant Fund's functional currency with the effect that the balance sheet of the Funds can be significantly affected by currency movements.

Currency exposure for investor classes

The shares of the Company are denominated in United States Dollar (USD), Euro (EUR), Norwegian Krone (NOK) and Swedish Krona (SEK) and are issued and redeemed in those currencies. The Investment Manager may seek to hedge the foreign currency exposure of the assets attributable to the shares in order to neutralise as far as reasonably possible, the impact of fluctuations in exchange rates. This is done monthly in addition to when a Fund has more than 3% absolute return, month to date. There is no guarantee that such hedging will give returns that are equal regardless of which currency the shareholders have invested in. In addition, shareholders whose assets and liabilities are predominantly in currencies other than the currency of investment in the Company should take into account the potential risk of loss arising from fluctuations in value between USD, EUR, NOK or SEK being the currency of shareholder investment, and such other currencies as invested in by the Company.

Portfolio currency exposure

The Funds trade in many different markets across the world and in many different currencies. Thus, certain assets in the portfolio may, regardless of the shares of the Fund, be invested in securities which are denominated in currencies other than USD, EUR, NOK or SEK. Consequently, the value of such assets will be affected either favourably or unfavourably by fluctuations in currency rates. The exposure towards the different currencies based on the denomination of the securities is reported daily for each Fund. For each individual Fund, action towards currency exposure in the portfolio is taken by the Investment Manager based on reported exposure of the Fund's assets.

Amounts represented below primarily are monetary assets and monetary liabilities except for investments in non-interest bearing securities, which include equities and contracts-for-difference, which are non-monetary assets.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(e) Credit risk

Credit risk is the risk that a counterparty will fail to discharge an obligation or commitment that is has entered into with the Funds.

The Funds are exposed to credit risk associated with counterparties with whom it trades or holds assets, and will also be exposed to the risk of settlement default. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet its obligation.

Trade counterparty

The Funds mitigate counterparty risk by undertaking transactions with large and well capitalised counterparties. The Funds also seek to trade with more than one counterparty and have reduced the activity with counterparties when there have been questions raised regarding the robustness of counterparties in terms of credit risk.

Although it is the intention of the Investment Managers to follow a general policy of seeking to spread the Funds' capital at risk over a number of investments and counterparties, the Funds may at certain times hold relatively few positions with the result that a loss in any such position either to trading counterparty or settlement default could have a substantial adverse impact on a Fund's capital.

The table below shows the long-term S&P credit ratings for the counterparties that hold cash as at 31 December 2017 and 31 December 2016:

e,	31 December 2017	31 December 2016
BNY Mellon	A	Α
DNB	A+	A+
Goldman Sachs	A	. A .

NOTES TO THE FINANCIAL STATEMENTS (Continued)

7. Financial Instruments and Associated Risks (Continued)

(f) Fair value estimation

The Company used the following fair value hierarchy levels in categorising its financial instruments by source of inputs used to determine its fair value:

Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.

Level 3: Inputs are unobserverable (i.e. for which market data is unavailable) for the asset or liability.

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments classified as Level 3 are those for which a quoted price at year end was unavailable and evidence of a recent transaction at that date could not be ascertained. These investments represent collective investment schemes where the net asset value is calculated by an underlying administrator. The net asset values represent their best evidence of the fair value of these assets at year end, however due to the lack of quoted price and evidence of a recent transaction, a Level 3 classification is considered appropriate.

The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses inputs that are unobservable, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

There were no significant transfers between levels during the financial year ended 31 December 2017 or 31 December 2016. Transfers between levels of the fair value hierarchy, for the purpose of disclosure in financial statements, are deemed to have occurred at the end of the reporting period.

The fair values of investments valued under Levels 1 to 3 as at 31 December 2017 are as follows:

Sector Global Equity Kernel	Level 1 USD	Level 2 USD	Level 3 USD	Total USD

NOTES TO THE FINANCIAL STATEMENTS (Continued)

8. Share Capital

The authorised share capital of the Company is 1,000,000,000,000 Shares of no par value initially designated as unclassified shares. The issued share capital of the Company is €2 represented by 2 shares (the "Subscriber Shares") issued for the purposes of the incorporation of the Company at an issue price of €1 per Share which are fully paid up and which are beneficially owned by Sector Asset Management AS and Sector Fund Services AS.

Sector Global Equity Kernel may issue Class A EUR Shares, Class A NOK Hedged Shares, Class A NOK Unhedged Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Hedged Shares, Class B NOK Unhedged Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class C EUR Shares, Class C NOK Shares, Class C SEK Shares and Class C USD Shares (the "Class C Shares"), Class L NOK Shares, Class O NOK Shares, and Class P NOK Hedged Shares, Class P NOK Unhedged Shares and Class P USD Shares ("the Class P Shares").

Sector Healthcare Value Fund may issue Class A EUR Shares, Class A NOK Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class L NOK Shares and Class X EUR Shares and Class X USD Shares (the "Class X Shares").

Sector Sigma Nordic Fund may issue Class A EUR Shares, Class A NOK Shares, Class A SEK Shares and Class A USD Shares (the "Class A Shares"), Class B EUR Shares, Class B NOK Shares, Class B SEK Shares and Class B USD Shares (the "Class B Shares"), Class C NOK Shares and Class C SEK Shares (the "Class C Shares"), Class D EUR Shares, Class D NOK Shares, Class D SEK Shares and Class D USD Shares (the "Class D Shares") and Class L NOK Shares.

On a show of hands every holder who is present in person or by proxy shall have one vote and the holders of Subscriber Shares present or in person or by proxy shall have one vote.

The rights attached to any class may be varied or abrogated with the consent in writing of the holders of three-fourths in number of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the Shares of the class, and may be so varied or abrogated either whilst the Company is a going concern or during or in contemplation of a winding-up. The quorum at any such separate general meeting, other than an adjourned meeting, shall be two persons holding or representing by proxy at least one third of the issued Shares of the class in question and the quorum at an adjourned meeting shall be one person holding Shares of the class in question or his proxy.

Class L NOK Shares and Class O NOK (issued by Sector Global Equity Kernel) are only available for subscription by (i) other funds, (including sub-funds of the Company), or similar collective investment schemes that a Sector Group (as defined in the Company's prospectus) company manages; (ii) the Directors; (iii) any person or investor connected with any such person or entity referred to in parts (i) and (ii) including, without limitation, a trustee of a trust established by or for such an entity, (iv) any company, partnership or other entity controlled by a Sector Group company (v) any company, partnership or other entity which has been appointed or acts as investment manager or investment adviser of an entity referred to in part (i), (vi) any employee of the Sector Group or (vii) any nominee of any of the foregoing.

The Class L NOK Shares (issued by Sector Healthcare Value Fund and Sector Sigma Nordic Fund) are open for public participation. However, the Investment Manager intends the Class L NOK Shares will be primarily invested in by any employees of a Sector Group company, any spouse of such employee, or any company controlled by (one or more) such employee or spouse.

Class L NOK Shares (issued by all Funds) are exempt from paying investment management fees.

9. Investment Management Fees

The Company has appointed Sector Omega AS as Investment Manager to Sector Global Equity Kernel, Sector Gamma AS as Investment Manager to Sector Healthcare Value Fund and has appointed Sigma Fondsforvaltning AS as Investment Manager to Sector Sigma Nordic Fund to provide investment management services pursuant to the investment management agreement between the Company and the Investment Manager.

Sector Global Equity Kernel pays the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class A Shares	Up to 1.50%
Class B Shares	Up to 0.75%
Class C Shares	Up to 0.50%
Class P Shares	Up to 0.50%
Class O Shares	Up to 3.00%

The Investment Manager does not charge a fee in respect of the Class L NOK Shares.

Sector Healthcare Value Fund pays the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	₩ **:	Management Fee
Class A Shares		Up to 1.0%
Class B Shares		Up to 2.0%
Class X Shares		Up to 0.5%

The Investment Manager does not charge a fee in respect of the Class L NOK Shares.

Sector Sigma Nordic Fund pays the Investment Manager a management fee per annum of the Net Asset Value of each of the following classes:

Class	Management Fee
Class A Shares	Up to 1.0%
Class B Shares	Up to 1.5%
Class C Shares	Up to 2.0%
Class D Shares	Up to 1.5%

The Investment Manager will not charge a fee in respect of Class L NOK Shares.

The management fees accrued for the financial year ended 31 December 2017 were USD2,190,864 (31 December 2016: USD1,795,651) and the amount outstanding at 31 December 2017 was USD345,115 (31 December 2016: USD165,630).

The Investment Manager to Sector Global Equity Kernel Fund does not anticipate that the "Total Expense Ratio" which includes but is not limited to the management fee, administration fees and expenses, depositary fees and expenses, establishment costs of the Fund and other operating expenses of the Fund will exceed 0.5% of the Net Asset Value of Class P USD Shares each year of the Fund's operation (the "TER Threshold"). If the Total Expense Ratio exceeds the TER Threshold, the Investment Manager has undertaken to discharge that proportion of the Total Expense Ratio of Class P USD Shares above the TER Threshold and shall rebate the Fund accordingly.

The Investment Manager will invest in Class O NOK Shares in Sector Global Equity Kernel and beginning on the date the Class O NOK subscription is booked to the Fund, the aggregate fees for Class P USD above the Class P USD threshold will be funded in this order on an ongoing basis; i) by utilising the 3% management fee attributable to Class O NOK, then ii) by utilising any preliminary charges attributable to Class O NOK accrued on the Fund. If the amounts funded in accordance with (i) and (ii) are not sufficient to achieve the Class P USD TER Threshold, then this excess cost shall accrue and be offset against future fees attributable to the Investment Manager, including future preliminary charges attributable to future investments in Class O NOK. As at 31 December 2017, Class O NOK as fully redeemed.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

9. Investment Management Fees (Continued)

The total fees waived by the Investment Manager for the financial year ended 31 December 2017 was USD177,897 (31 December 2016: USD213,443) and the net amount payable as at 31 December 2017 was USD112,175 (31 December 2016: USD44,323).

10. Incentive Fees

The Investment Manager is also entitled to receive an incentive fee, as calculated for each Fund as disclosed below. The Incentive Fee will be verified by the Depositary.

The Incentive Fee is calculated on a share-by-share basis so that each share is charged a fee which equates precisely with that share's performance over each Calculation Year. This method of calculation ensures that (i) any Incentive Fee paid to the Investment Manager is charged only to those shares which have outperformed their respective Prior High Net Asset Value (as defined below) over the course of a Calculation Year, (ii) all holders of shares have the same amount of capital per share at risk in the Fund, and (iii) all shares in a particular Class have the same net asset value per share.

The Incentive Fee shall only be payable on the amount by which each share outperforms the previous high watermark or "Prior High Net Asset Value" (as defined below) for the relevant share. For each Calculation Year, an Incentive Fee will only be payable by a particular share if the net asset value of that share at the end of a Calculation Year is greater than the prevailing Prior High Net Asset Value for that share.

The "Prior High Net Asset Value" of each share is the highest net asset value per share on which the Incentive Fee was paid in respect of any previous Calculation Year (or, if no Incentive Fee has yet been paid with respect to any such Calculation Year, the initial issue price of the relevant share). As the Incentive Fee is based on net realised and net unrealised gains and losses as at the end of each Calculation Year and as a result, it may be paid on unrealised gains which may subsequently never be realised.

At the end of each Calculation Year, where Incentive Fee has been paid, and only then, the Prior High Net Asset Value per share will be reset to the net asset value per share of the relevant class at the end of such Calculation Year. For the avoidance of doubt, where the relevant class has underperformed, (i.e. its net asset value per share at the end of a Calculation Year is below the Prior High Net Asset Value per share), no Incentive Fee will be payable until the underperformance is clawed back.

Sector Global Equity Kernel

The Fund, in respect of the Class C Shares and Class O NOK Shares pays the Investment Manager an incentive fee (the "Incentive Fee") equal to 10 per cent of the amount by which the Net Asset Value (before the deduction of any performance fee) of the relevant Class exceeds the MSCI ACWI Index ("Index") adjusted Prior High Net Asset Value ("Index adjusted Prior High Net Asset Value") (as defined below). No Incentive Fee is charged in respect of the Class A Shares, Class P Shares and Class L NOK Shares. Per the revised Supplement issued 16 December 2016, Class B Shares ceased to incur an Incentive Fee effective 16 December 2016.

The Incentive Fee is calculated on a share-by-share basis so that each share is charged a fee which equates precisely with that share's performance over each Calculation Year (as defined below). This method of calculation ensures that (i) any Incentive Fee paid to the Investment Manager is charged only to those shares which have outperformed their respective Prior High Net Asset Value over the course of a Calculation Year, (ii) all holders of shares have the same amount of capital per share at risk in the Fund, and (iii) all shares in a particular class have the same net asset value per share.

The Incentive Fee shall only be payable on the amount by which each share outperforms the previous high watermark or Index adjusted Prior High Net Asset Value for the relevant share. For each Calculation Year, an Incentive Fee will only be payable by a particular share if the net asset value of that share at the end of a Calculation Year is greater than the prevailing Prior High Net Asset Value for that share.

The "Prior High Net Asset Value" of each share is the highest net asset value per share on which Incentive Fee was paid in respect of any previous Calculation Year (or, if no Incentive Fee has yet been paid with respect to any such Calculation Year, the Initial Issue Price of the relevant share). The "Index adjusted Prior High Net Asset Value" of each share is the Prior High Net Asset Value adjusted by the performance of the Index for the relevant Calculation Year.

The calculation year for the Incentive Fee shall be a calendar year, closing on the 31 December each year (or if the 31 December is not a Business Day, on the last Business Day of the year) (the "Calculation Year"). The Incentive Fee will accrue as at each valuation point and shall be payable annually in arrears (on or after the first business day of the following year).

Sector Healthcare Value Fund

The Fund, in respect of the Class A Shares, pays the Investment Manager a fee equal to 20% of the amount by which the net asset value (before the deduction of any performance fee) of the relevant share exceeds the MSCI Daily TR World Net Healthcare USD (the "Index"), and in respect of Class X Shares, a fee equal to 15% of the amount by which the net asset value (before the deduction of any performance fee) of the relevant share exceeds the Index (the "Incentive Fee").

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

10. Incentive Fees (Continued)

Sector Healthcare Value Fund (Continued)

The relevant share's subscription price or the initial issue price (where shares are issued during the initial offer year) is taken as the starting price for the purposes of determining the Incentive Fee. The Incentive Fee is accrued on a daily basis and reflected in the net asset value per share at each valuation point. The accrued Incentive Fee will only be paid to the Investment Manager once a shareholder redeems its investment in the Fund or when the Fund closes down where the performance of the relevant shares has exceeded the performance of the Index. The Incentive Fee may be payable even if the absolute return on the shareholder's investment is zero or negative. For example, if during the year of a shareholder's investment in the Fund, the net asset value per share on redemption is less than or equal to the net asset value per share that that shareholder paid on its initial subscription into the Fund, the Incentive Fee may still be payable if the net asset value per share on redemption exceeds the Index Net Asset Value per share, i.e. the Fund has outperformed the Index for the year of the shareholder's investment. No Incentive Fee will be charged in respect of the Class B Shares and Class L NOK Shares.

Sector Sigma Nordic Fund

The Investment Manager is entitled to receive an incentive fee (the "Incentive Fee") of the aggregate appreciation in value of the Class A Shares, the Class B Shares, the Class B Shares and Class D Shares during the relevant Calculation Year (as defined below). No Incentive Fee will be charged in respect of the Class L NOK Shares.

The Incentive Fee equals 15% of the aggregate appreciation in value of the Class A Shares and 20% of the aggregate appreciation in value of the Class B Shares and the Class C Shares.

The Incentive Fee accrues as at each valuation point and is calculated annually on the rate of return (net of the Investment Manager's fees) of each class, and will be payable annually in arrears (on or after the first business day of the following year), or upon redemption, if earlier. The calculation period for the Class A Shares, the Class B Shares and the Class C Shares shall be a calendar year, closing on the last business day each year (the "Calculation Period"). The First Calculation Period for any unlaunched Class A, Class B and/or Class C Shares shall commence from the conclusion of the relevant initial offer period and cease on the last business day of the relevant calendar year.

The Investment Manager shall also be entitled to an incentive fee ("Class D Incentive Fee") equal to 20% of the aggregated appreciation in value of the Class D Shares, in excess of the Prior High Net Asset Value (as defined below) adjusted by the performance of the following hurdle rates, (each a "Hurdle Rate"); Class D SEK Shares the return of 3 month Swedish treasury bills (Bloomberg Ticker, GSGT3M Index). The Investment Manager has agreed to waive the 3 month Swedish Treasury bill as hurdle rate whenever the return of the 3 month Swedish treasury bills is negative. In this instance the hurdle rate is set at zero;

- Class D USD Shares the return of 3 month US treasury bills (Bloomberg Ticker: USGG3M Index);
- Class D NOK Shares the return of 3 month Norwegian treasury bills (Bloomberg Ticker: GNGT3M Index); and
- Class D EUR Shares the return of 3 month German treasury bills (Bloomberg Ticker: GETB1 Index).

Prior High Net Asset Value per Share is the greater of (i) the Initial Issue Price for the relevant Class D Shares or (ii) the Net Asset Value per Class D Share on which the Class D Incentive Fee was paid in respect of any previous Class D Calculation Year.

The first calculation year for the Class D Shares shall commence from the close of the relevant initial offer year for the Class D Shares and conclude on the next Business Day thereafter. The calculation year thereafter shall be each Business Day (the "Class D Calculation Year"). The Class D Incentive Fee will be calculated and crystallised as at each Valuation Point (net of the Investment Manager's fees), and will be payable monthly in arrears (on or after the first Business Day of the following month), or upon redemption, if earlier.

The Incentive Fees accrued by the Company for the financial year ended 31 December 2017 were USD105,531 (31 December 2016; USD750,987) and the amount outstanding at 31 December 2017 was USD591,122 (31 December 2016; USD1,148,136).

Equalisation Credit

The equalisation credit policy is applied to the calculation of the Incentive Fee payable for certain classes in each Fund (see the Fund's relevant Supplement for further details). The Incentive Fee is calculated on a share-by-share basis so that each relevant share is charged an Incentive Fee that equates precisely with that relevant share's performance. This method of calculation ensures that (i) the Incentive Fee is charged only to those relevant shares that have appreciated in value relative to the Index, (ii) all relevant shareholders have the same amount per relevant share of the relevant class at risk in the Fund, and (iii) all shares of the same class have the same net asset value per share. If a shareholder subscribes for relevant shares at a time when the net asset value per relevant share is other than the Index Net Asset Value, certain adjustments will be made to reduce inequities that could otherwise result to the subscriber or beneficiary of the Incentive Fee. For the financial year ended 31 December 2017 an equalisation credit of USD789,461 (31 December 2016: USD1,288,849) was applied by the Company.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

11. Administration Fees and Depositary/Custodian Fees

The Company has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company ("BNY Mellon") to act as Administrator, registrar and transfer agent and BNY Mellon Trust Company (Ireland) Limited to act as Depositary (the "Depositary" from 14 April 2016 and the "Custodian" up to 14 April 2016). BNY Mellon is entitled to receive out of the assets of the Funds an annual administration fee, accrued and calculated on each dealing day and payable monthly in arrears of up to 0.105% of the aggregated Net Assets. BNY Mellon is also entitled to a shareholding services fee of USD1,875 per share class per month together with agreed upon transaction charges. The Administrator is also entitled a financial reporting fee of up to USD5,000 per set of financial statements and other out of pocket expenses out of the assets of the Funds (plus VAT thereon if any).

The Administration fee accrued for the financial year ended 31 December 2017 was USD746,937 (31 December 2016; USD685,549) and the amount outstanding at 31 December 2017 was USD169,880 (31 December 2016; USD181,821).

The Depositary/Custodian is/was entitled to an asset based fee of up to 0.02% per annum payable monthly together with sub-custodians' fees (which will be charged at normal commercial rates) as well as agreed upon transaction charges (which will be at normal commercial rates) and other out of pocket expenses (plus VAT thereon if any).

The Depositary/Custodian fee accrued for the financial year ended 31 December 2017 was USD228,957 (31 December 2016; USD163,185) and the amount outstanding at 31 December 2017 was USD42,683 (31 December 2016; USD30,810).

12. Directors' Fees and Expenses

The Directors shall be entitled to a fee in remuneration for their services at a rate to be determined from time to time by the Directors, but so that the aggregate amount of Directors' remuneration in any one year shall not exceed £20,000 or such higher amount as may be approved by resolution of the Directors and notified to shareholders. The Directors may also be paid all travelling, hotel and other expenses, properly incurred by them, in attending and returning from meetings of the Directors or general meetings of the Company or in connection with the business of the Company. The Directors may in addition to such remuneration as aforesaid grant special remuneration to any Director who, being called upon, shall perform any special or extra services to or at the request of the Company and such remuneration will be at normal commercial rates

The Directors' fees and expenses accrued for the financial year ended 31 December 2017 was USD17,494 (31 December 2016: USD17,831) and the amount outstanding at 31 December 2017 was USD5,887 (31 December 2016; USD5,005).

13. Auditors' Fees

Fees and expenses paid to the statutory auditors, Deloitte, in respect of the financial year, entirely relate to the audit of the financial statements of the Company. There were no fees and expenses paid in respect of other assurance, tax advisory or non-audit services provided to the auditors for the financial year ended 31 December 2017 and 31 December 2016.

Audit fees charged for the financial year ended 31 December 2017 were EUR20,625 ex VAT (31 December 2016: EUR20,625). Tax advisory fees charged for the financial year ended 31 December 2017 were EUR12,950 ex VAT (31 December 2016: EUR10,000).

14. Efficient Portfolio Management

The Company may enter into a variety of derivative instruments including, but not limited to, forward foreign exchange contracts, futures, options, swaps, contracts-for-difference, stock lending and repurchase agreements for the purposes of efficient portfolio management only, subject to the conditions and limits set out in the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2015 (the "Central Bank UCITS Regulations") and within any further limits laid down by the Central Bank of Ireland from time to time. In particular, the Punds may engage in forward foreign exchange contracts to provide protection against exchange rate risks, including cross-currency hedging, and in order to hedge foreign currency exposure of the underlying assets of the Funds into the base currency of the Funds or into a currency institutionally linked to the base currency. It is intended that the use of such forwards may reduce the currency risk in respect of the Funds and will better enable the Funds to manage its assets and liabilities. Futures contracts may be used to hedge or gain exposure to an increase in the value of an asset, market, currency, or deposit. Options may be used to hedge or achieve exposure to a particular market instead of using a physical security. Swaps may be used to achieve profit as well as to hedge existing long positions. Contracts-for-difference ("CFDs") are bilateral agreements to exchange the difference between opening and closing contracts, which represent the performance of an underlying share.

At the discretion of the Directors, the Funds may use financial derivative instruments as a primary investment policy and details of the investment policy will be set out in the applicable Supplement in accordance with the requirements of the Central Bank of Ireland.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

14. Efficient Portfolio Management (Continued)

For the year ended 31 December 2017 and 31 December 2016, the Company has utilised forward foreign currency contracts, contracts-for-difference and options for efficient portfolio management. As at 31 December 2017 and 31 December 2016, all options are exchanged traded derivatives and forward foreign currency contracts and CFDs are OTC derivatives. All options held as at 31 December 2017 and 31 December 2016, by Sector Sigma Nordic Fund are considered to be covered options. All open derivative positions are disclosed in the schedule of investments except for forward currency contracts which are disclosed in note 7 (d) above.

15. Directors' Interests, Connected Persons and Related Party Transactions

Fees payable to the relevant Investment Manager are disclosed in notes 9 and 10.

Depositary and Administrator

Although not deemed to be related parties under FRS 102 as they do not exercise "significant influence" over the activities of the Company, the Regulations also deem a "Depositary" and its "associated or group companies" to be "connected persons" to the Company. As such, BNY Mellon Trust Company (Ireland) Limited, the Depositary, and BNY Mellon Fund Services (Ireland) Designated Activity Company, the Administrator, are connected persons to the Company.

The Board of Directors is satisfied that there are arrangements (evidenced by written procedures) in place, to ensure that any transaction carried out with the Company by a promoter, manager, depositary/custodian, investment manager and/or associated or group companies of these ("connected persons") are carried out as if negotiated at arm's length and that all such transactions are carried out in the best interests of the shareholders. The Board of Directors are satisfied that transactions with connected persons entered into during the period complied with the obligations set out in the Regulations.

As at 31 December 2017 and 31 December 2016, the following key personnel as defined within Section 33 of FRS 102 held a beneficial interest in the Funds as follows:

31 December 2017

Key personnel	Role/Team	Fund/Class	Number of Shares held
Lars Tell	Director	Sector Sigma Nordic Fund, Class L NOK	01
Lars Tell	Director	Sector Healthcare Value Fund, Class L NOK	89
Jan Henrik Arvesen	Investment Manager, Sigma Fondsforvaltning AS	Sector Sigma Nordic Fund, Class L NOK	3,341
Trond Tviberg	Investment Manager, Sector Gamma AS	Sector Healthcare Value Fund, Class L NOK	7,945
Trond Horneland	Investment Manager, Sector Gamma AS	Sector Healthcare Value Fund, Class L NOK	15,665
Sector Gamma AS	Investment Manager	Sector Healthcare Value Fund, Class B SEK	118

31 December 2016

Key personnel	Role/Team	Fund/Class	Number of Shares held
Lars Tell	Director, Sector Capital Funds plc	Sector Sigma Nordic Fund, Class L NOK	91
Lars Tell	Director, Sector Capital Funds plc	Sector Healthcare Value Fund, Class L NOK	48
Jan Henrik Arvesen	Investment Manager, Sigma Fondsforvaltning AS	Sector Sigma Nordic Fund, Class L NOK	3,341
Trond Tviberg	Investment Manager, Sector Gamma AS	Sector Healthcare Value Fund, Class L NOK	7,945

Sector Polaris	Related party fund	Sector Sigma Nordic Fund, Class A USD	13
Sector Polaris	Related party fund	Sector Sigma Nordic Fund, Class B NOK	6,496

As at 31 December 2017 and 31 December 2016, Sector Asset Management AS, ultimate parent company of the Investment Manager, held 3 Class A EUR Shares, 2 Class A NOK Shares and 2 Class A USD Shares in Sector Healthcare Value Fund.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

NOTES TO THE FINANCIAL STATEMENTS (Continued)

16. Contingent Liabilities

The Company is established as a segregated portfolio company. As a matter of Irish law, the assets of one Fund will not be available to satisfy the liabilities of another. However, the Company is a single legal entity which may operate or have assets held on its behalf or be subject to claims in other jurisdictions which may not necessarily recognise such segregation. There is no guarantee that the courts of any jurisdiction outside Ireland will respect the limitations on liability associated with segregated portfolio companies nor is there any guarantee that the creditors of one Fund will not seek to enforce such Fund's obligations against another Fund.

As at 31 December 2017, there were three Funds in operation (31 December 2016; three) and there were no known contingent liabilities.

17. Soft Commission

There were no soft commissions for the financial years ended 31 December 2017 or 31 December 2016.

18. IMR Regulations

In response to the CBI publishing the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) Investor Money Regulations 2015 for Fund Service Providers (the "Investor Money Regulations" or "IMR") issued in March 2015, subscription and redemption monies will (effective from 1 July 2016), be channeled through a sub-fund cash collection account in the name of the sub-fund. Pending issue of the shares and/or payment of subscription proceeds to an account in the name of the sub-fund(s), and pending payment of redemption proceeds or distributions, the relevant investor will be an unsecured creditor of the sub-fund in respect of amounts paid by or due to it. As at 31 December 2017 and 31 December 2016 the Funds have received subscriptions in advance and these amounts are reflected on the Balance Sheet.

19. Comparative Year

The prior period comparatives are for the financial year 1 January 2016 to 31 December 2016.

20. Three Year Historical Net Asset Value

21. Significant Events during the Year

On 22 March 2017, revised supplements to the Prospectus for both Sector Sigma Nordio Fund and Sector Healthcare Value Fund were approved by the Central Bank of Ireland.

A revised Prospectus for the Company was noted by the Central Bank of Ireland on 12 July 2017,

The significant updates to the Prospectus were as follows:

- full update to the taxation sections to ensure the disclosures are in line with current industry standards and to reflect the relevant provisions of the Finance Act 2016;
- updates to reflect the coming into force of Regulation 2015/2365 of the European Parliament and of the Council of 25 November 2015 on transparency of securities financing transactions and of reuse and amending Regulation (EU) No 648/2012 (the "SFT Regulations") to include drafting of relevant disclosure relating to the use of total return swaps and repurchase agreements, reverse repurchase agreements, securities lending agreements and any other transactions within the scope of the SFT Regulations that the funds are permitted to engage in ("Securities Financing Transactions");
- expanding the suite of risk factors bringing them into line with current industry standards and to include additional risk factors as necessitated by legal and regulatory changes;
- updates to reflect the power of the Depositary to delegate its depositary functions to include additional disclosure and the list of the Depositary's sub-delegates; and
- updates to reflect the change in the Company's address.

Each of the supplements for Sector Healthcare Value Fund, Sector Sigma Nordic Fund and Sector Global Equity Kernel were noted by the Central Bank of Ireland on 12 July 2017. The main updates for each of these supplements was to reflect the relevant disclosures relating to the use of total return swaps. In addition the supplement for Sector Healthcare Value Fund was updated to reflect an amended settlement date in respect of subscriptions.

Effective 24 August 2017, Paul Dobbyn resigned as a Director and Conor Walsh was appointed as a Director.

Effective 21 December 2017, the Central Bank of Ireland noted the supplement for Trient Dynamic Multi-Asset Fund. As at 31 December 2017, Trient Dynamic Multi-Asset Fund has not yet launched.

There were no other significant events during the year.

22. Significant Events after the Balance Sheet Date

On 2 January 2018, a revised supplement to the Prospectus for Sector Global Equity Kernel was approved by the Central Bank of Ireland. The main updates related to:

- Deletion of the preliminary redemption charge;
- Updates to the management fee payable to the Investment Manager;
- Deletion of the total expense ratio;
- Clarification that the Fund shall continue to be responsible for expenses, including the operating expenses related to researching, implementing, carrying out and disposing of specialised and specific investment research for the Fund, including amounts payable to third party consultants.

There were no other significant events after the balance sheet date.

Trient Dynamic Multi-Asset Fund is scheduled to commence operations 20 April 2018.

23. Approval of Financial Statements

The financial statements were authorised for issue by the Directors on 17 April 2018.

Annual Report and Audited Financial Statements
For the financial year ended 31 December 2017

SIGNIFICANT PORTFOLIO MOVEMENTS

In accordance with the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48 (1) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2015, a statement of the largest changes in the composition of the Schedule of Investments during the year is provided to ensure that the shareholders can identify changes in the investments held by the Fund. These statements present the aggregate purchases and sales of an investment, exceeding 1% of the total value of purchases and sales for the year. At a minimum the largest 20 purchases and sales are listed. If the Fund enters into less than 20 purchases or sales during the year, then all transactions are presented.

Annual Report and Audited Financial Statements For the financial year ended 31 December 2017

REMUNERATION INFORMATION (Unaudited)

Regulation 89(3A) of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011), as amended (the "UCITS Regulations") (as introduced pursuant to the European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016 (the "UCITS V Regulations") on 21 March 2016) requires that the annual report of the Company contains certain disclosures on renuneration paid by the Company to its staff during the financial year and details of any material changes to the Company's renuneration policy made during the period.

In this regard, the following points are to be noted:

- The Company has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out in the UCITS Regulations and ESMA's Guidelines on sound remuneration policies under the UCITS Directive (ESMA/2016/575) (the "Guidelines"). This policy was adopted with effect from 1 January 2017.
- No annual reviews have as yet been undertaken and no material changes have been made to the remuneration policy since 1 January 2017.
- The first annual performance period in which the Company has to comply with the remuneration requirements set out in the UCITS Regulations shall be the year ending 31 December 2017, i.e. the Company's next financial year.
- The Company has no employees or staff that it employs and pays directly. The Company has a Board of Directors, one of whom is an employee of the Sector group and receives no remuneration from the Company. The remaining two directors, each of whom is independent, receive a fixed fee only (for the year ended 31 December 2017; € 16,000 in aggregate) and do not receive variable remuneration. These fees are set at a level that reflects the qualifications and contribution required taking into account the Company's size, internal organisation and the nature, scope and complexity of its activities.
